Labor Hits Reds' Move On Strike

Assails Attempt To Topple Heath

By Terry Robards

LONDON, Jan. 29 ONTT) .-Controversy broke out today over the efforts of a Communist leader of the Mineworkers Union to marshal support for a strike. The issue piaced a strain on the tacit alliance between the miners and the Labor party opposition.

In a strongly worded statement, the Labor party denounced what it said was an attempt by Communists and other extremists to exploit the labor dispute to topple the government. A similar de-nunciation was issued last night by Prime Minister Edward Heath.

At the center of the controversy that suddenly has brought Mr. Heath and his Labor opponents into an unlikely and no doubt very temporary alliance is Michael McCahey, the out-spoken Communist vice-president of the National Union of Mine-

In a speech in Scotland, Mr. McGahey said that, if the government decided to use soldiers to help move coal in the event of a strike, be would appeal to the troops to aid the miners. Conservative critics interpreted the statement as unpatriotic. in-flammatory and even seditious. Strike Vote

Labor members of Parliament were reported describing Mr. Mc-Gahey as the "best asset the government has" in the present conflict with the miners over wages. The union's leaders have ordered a strike vote that could lead to a shutdown of the mines as early

In their dispute with the government over pay, the miners for the past 11 weeks have refused to work overtime. This and other slowing an tactics have out coal production by an estimated 40 percent. To conserve coal stocks at generating plants, all industry, except for essential services, has been put on a three-day work

James Callaghan, chairman of ward, general secretary, said today in a joint statement; "We nitterly repudiate any attempt by Communists or others to use the miners as a political battering ram to bring about a general strike or to call on troops to disober lawful orders in the event of a strike.

U.S. Indicts Man "That is slily and dangerous nonscise. The Mineworkers have a long affiliation to the Labor party and we deny the right of Communists or extremist mem-bers of the NUM executive to speak for them on political is-LOS ANGELES, Jan. 29 (WF).

The statement did not refer to Mr. McGahey by name, but did mention the "extremist spokes-man" on the union's executive board. Mr. McGahey is the acknowledged spokesman for the six Communist members of the 27-man executive board of the

The Labor party has been ex-tremely cautious about its support of the miners, lest it be given a share of the responsibility for the economic devastation that would be wrought by a lengthy strike of the coal mines.

Nixon Is Subpoenaed as a Witness In California Trial of 3 Ex-Aides

By William Earr LOS ANGELES, Jan 29.—Superior Court Judge Gardon Ringer today issued a subpoena for Pres-ident Nixon to appear as a defense wimess at the Los Angeles trial of three former Weite House aides indicted for the break in at the office of Daniel Elisberg's former psychiatrist.

"This will be the first time in history a state court has taken such an action." Judge Ringer said in ordering Mr. Nixon to appear at both a Pen. 25 pre-trial hearing and the trial, scheduled to get under way on April 15.

In granting the request on behalf of defendants John D. Elirlichman, David R. Young jr. and G. Gordon Liddy, the judge

Richard M. Nixon, to testify before this court," The judge said he was "per-

suaded" that Mr. Nixon is a material witness for the defense after reading the President's May 22, 1973, public statement about why he formed the special investirations unit that became known as the "plumbers."

In Washington, White Hous Deputy Press Secretary Gerald L. Warren said: "Of course we have not received the order. When it is received, we will consider is and an appropriate Tu-sponse will be forthcoming." Earlier, White House lawyers indicated they had told Mr.

Ehrlichman that the President had no intention of voluntarily appearing for him in court here. But Mr. Warren would not say "This court will sign and issue how Mr. Nixon would react to a properly prepared certificate a subpoena.

"You will understand that in

The principal loser in the swing

WASHINGTON, Jan. 29 (NYT). position could, for example, preclude holding the President responsible for negligence or a pattern of conduct on the part of his subordinates.

Although some Democrats on the committee favor bolding the President accountable for closer supervision of those under him, they have, as a group, reached no similar informal agreement on the question of accountability. Common Approach Watergate-related matters.

The meeting, the first held between Republican committee members and their counsel, was designed to develop a common approach to the conduct of the impeachment inquiry. In addi-tion to agreement on the President's responsibility for subordinates, members reported the following informal agreements:

That there is a need for a public hearing of an educational nature on the subject of impeachment, but one that relies on the committee's staff and not "outside experts."

That subpoens powers granted the committee by the House must be "fully bipartisan" and thet the ranking minority men:bers have powers equal to those of the chairman.
The position taken by the Re-

publicans on the President's liability leaves unclear bow this approach will be used to deal with specific charges made against Mr. Nixon in the Watergate and related scandals. According to a participant in the meeting, spe-cific cases were discussed with Mr. Jenner in an effort to clarify the matter.

An. Example "Mr. Jonner used for an example the President's authorization of a 'plumbers' operation."
this member said, "which included
wiretaps and break-ins. That
could very easily constitute an
offense because of his knowledge end actions. If President Nixon specifically authorized wiretaps or burglary to get information—that could constitute knowledge of the offenses "

The Judiciary Committee, which is considering all impeachment resolutions introduced in the House, is made up exclusively of lawyers. The present make-up man's attorneys that they had failed in an ettempt to have Mr. Nixon appear voluntarily at the pre-trial and trial proceedings. Judge Ringer cited a ruling in the 1807 treason trial of Vice-President Aaron Burr as the legal

precedent for his action.

"U.S. vs. Burr is command-ing..., It will be up to the President or his counsel to show that it would be a hardship to appear or to assert executive privilege," the judge stated.

In the Burr case, Supreme Court Chief Justice John Marshall isitting as a district judgel issued a subpoena for a letter in the session of President Thomas Jefferson. President Jefferson turned over the letter without

Prosecutor Stepben Trott did not oppose the issuance of the subpoena, saying that "at this juncture," he felt it was proper. Outside the courtroom, he further

explained: "It is not the position of the presecution to interfere with the defense in getting testimony from someone they feel is a material witness. That is the American system and we remained neutral on that basis."

Delivery of Subpoena The subpoens would be delivered to the White House through the Superior Court of the District

of Columbia Attorneys for both sides said that if the President resists the subpoena, it probably would prompt a hearing in a Washington court.

Douglas Dalton, one of Mr. Ehrlichman's attorneys, told Judge Ringer that he had ettempted to heve Mr. Nixon appear voluntarily, but had been turned down by James St. Clair, the President's top legal adviser on

"He [Mr. St. Clair] said that be would advise the President against voluntarily testifying. Mr. Dalton told the court. "but he said that possibly something eculd be worked out on questions to be submitted for the President to answer."

The defense had asked for an (Continued on Page 2, Col. 1)

U.S. Drops Rules On Investments, Loans Overseas

By Edwin L. Dale Jr.

WASHINGTON, Jan. 29 (NYT).—The government abruptly ended today its array of controls over the outflow of dollars for lending and investing abroad, some of which are more than a decade old.

Terminated immediately were these three programs:

The "Interest equalization tax" on purchase of foreign stocks and bonds by Americans.

The Commerce Department's elaborate controls on outflow of dollars for direct corporate investment abroad.
 The Federal Reserve Board's

"voluntary" program of restraints on bank lending abroad.

In a brief statement the Treasury said:
"The actions are appropriate in light of the recent improvements in the United States balance-of-

payments position, the strong • Europe welcomes action

-Page 7. position of the dollar in the exchange markets, and the desirability of avoiding official restrictions on the flow of capital to points of need at a time when the palance-of-payments positions of many countries have been sharp-ly changed by the repercussions of the higher oil prices."

of the higher oil prices."

In a speech to a savings-bond hincheon in Chicago, Secretary of the Treasury George P. Shultz called today's action "a major milestone" and said, "I rejoice" in seeing restoration of "the freedom to invest your funds where you think the property are the you think the prospects are the

most promising," He said the end of controls should lead to more foreign investment in the United States, and not only to more American investment broad,

Foreigners Hesitate

"Apparently," be remarked.
"many foreign investors hesitated to invest in a country that needed a fence around it to keep money in."

President Nixon and Mr. Shulter had announced in February of last year, at the time of the second formal devaluation of the dollar's exchange rate against other leading currencies, that the three controls would be "phased Shultz noted today, "We have been able to accomplish the final objective many months ahead of schedule."

Today's move came as a surprise because only a few weeks ago changes were made in all and the balance three programs. While the vastly improved.

Dollar Drops

At U.S. Move PARIS, Jan. 29 (IHT) .-The lifting of U.S. capital controls caused the dollar to drop sharply on European currency exchanges today. while Euroband issues by U.S. companies rose.

Against the deutsche mark the dollar fell to 2.812 marks from 2.8315 yesterday, while against the pound sterling it dropped to \$2.2375 from \$2.206.

The decline against the French financial, or tourist, franc was less dramatic. The dollar fell to 5.275 francs from 5.28 francs yesterday. In Switzerland it dropped to 3.33 france from 3.3455 france

changes were all in a liberalizing direction permitting more dollar outflow—there was no hint that the controls would be ended altogether.

A high Treasury official said today that a major reason for ending the controls was the experience in the four weeks since they were liberalized. He noted that there had been "no disturbance in the foreign-exchange markets, no obstacles to our in-ternational negotiations."

"We tested the water and found it was fine," he said.
One problem in eliminating the controls was that other nations had insisted that the United States

should adopt measures of this kind to help stem the outflow of dollars and aid the U.S. balance of payments. But that climate has now, apparently, completely changed. The dollar is strong and wanted by other countries, and the balance of payments has

Threatens to Look Elsewhere

Pravda Says Pentagon Tries To Block U.S.-Soviet Trade

Agnew Guard Unwarranted, **Congress Told**

WASHINGTON, Jan. 29 (Reuters -- President Nixon had no legal authority to order Secret Service protection for Spiro T. Agnew after the former Vice-President resigned, the top U.S. government auditor told Congress

Elmer Staats, controller-general of the United States, said Secret Service protection for Mr. Agnew cost \$89,222 betweeen the time ha resigned last Oct. 10, to Dec. 15, The protection continues, but is expected to end shortly.

Mr. Staats, who is also head of the General Accounting Office, the investigating arm of Congress. launched an inquiry into Secret Service protection for Mr. Agnew last November at the request of Rep. John Moss, D., Calif.

In a letter to Rep. Moss, which the congressman released, he said that the protection was authorized by Mr, Nixon in a directive to Treasury Secretary George P. Shultz, who oversees the Secret Service.

But Mr. Steats said: "In the absence of statutory authority for the protection of the former vicepresident, we conclude that the presidential directive to the Secret Service requesting such protec-tion does not constitute legal authority to provide it."

The memorandum from the Fresident to Mr. Shultz said:
"You are hereby requested to direct the United States Secret Service to provide a detail for the protection of former Vice-President Spiro T. Agnew for a reasonable period of time."

The protection is still being provided, but Mr. Staats said the Treasury Department had told him it contemplates this will end The Secret Service is also

providing Mr. Agnew with cars and drivers, but Mr. Steats said this is authorized under existing legislation to case the transition to the new Vine-President, Gerald R. Ford.

Cairo's Third Army Thinning Out Israelis Pull Out of Deepest Point in Egypt

TEL AVIV, Jan. 29 (UPI) .- Is- tween Jerusalem. and Damascus raeli forces began pulling back would not take place in the today from their deepest penetra-tion point into Egypt in what a military spokesman termed the second phase of disengagement. He said that Egypt had begun thinning out its Third Army in

The spokesman said that Israeli troops started withdrawing from their positions in a narrow strip whose western end came to within 50 miles of Cairo. A military source said it will take near-ly a week for the second phase of the withdrawal to be complet-

The withdrawal is the first robintary pullout of Israeli troops from occupied land since 1957, when international pressure forced Israel to give up the Sinai Peninsula captured the year be-

The strip is only a few miles wide at its largest point where it touches the Suez Canal and tapers from east to west, It is about 30 miles long. Third Army Pulling Out

At the same time, troops in the Egyptian Third Army that had been trapped in Sinai until yesterday began pulling out of their enclave and crossing the canal to enter Sucz city, the spokesman

The armed forces radio said that the Egyptian troops streamed into Suez. It said that heavy civilian traffic moved on the Cairo-Suez highway that the

Israelis evacuated yesterday.

The Egyptian thinning out process, beginning with the bulge in Sinai at the southern end of the canal, reciprocates for the Israeli withdrawal as stipulated in the disengagement agreement signed Jan, 18.

Israeli troops and armor completed the first stage of their pullout from the west bank yesterday, evacuating about a third of the 560 square miles of the area captured in the October war. Kissinger Line

Further withdrawals will be

made in three stages from south to north until the west bank is cleared Feb. 21. The final pullback to a line 15 miles into Sinai will be completed by March 5. Israeli soldiers call it the Kis-

Israeli forces will not begin to move out of their final pocket on the west bank until about mid-February, the military source said. At that time, the bulge will be less than half the total area that was captured. Yesterday, in Cairo, Maj. Gen.

Hassan el-Greitly, the army chief of operations, said that the Israeli pullback came as a result of Egyptian military pressure.

'The battle against the enemy'

will continue until all occupied Arab territories have been liberated. The battle does not end at the Suez Canal," he said, according to the newspaper Al

Syrian Shelling

The army spokesman said that Syrian artillery batteries twice fired volleys of morter shells at Israeli positions near Mazarat-Beit Jann on the northern cease-Ire line. There were no Israeli casualties and fire was returned, he said.

In Damascus, a Syrian military snokesman said that five Israeli armered troop carriers had been destroyed in the shellings and that a number of Israelis were killed or wounded. He reported no Syrian losses.

The Israeli national radio in a report from Geneva, said that proposed disengagement talks be-

Palestinians of West Bank Oppose Israel More Openly

(Continued from Page 1) minister and ambassador, in his

Among those who espouse the ajority view, reticence has vanished since the October war. Said Aladin, also a former minister in Hussein's government but one who had confined expression of his views to his circle of friends, repeated them openly in an interview in an East Jerusalem hotel, "Jordan doesn't matter to us

Palestinians," he said. "Jordan has already made her peace with Israel and between them things are normal. The bridges between them are open. Jordan did not make itself popular in 1967, when without fighting.
"Then, in 1971, they butchered

so many Palestinian Arabs. They killed left, right and center. And in the last war they did not allow the fedayeen to take part. think Jordan is not a factor." The fedayeen are the Palestinian guerrillas.

Like many foes of Hussein who

(Continued from Page 1) election before his term expires in mid-1975. Harold Wilson, the Labor par-

ty's leader, took part in an acri-monlous debate with the prime minister in the House of Commons today, but refused to re-spond to Mr. Heath's direct chalange to urge the coal miners to vote against a strike. Instead, Mr. Wilson was greeted with a burst of cheering from

ther opposition members of Parliament when he suggested that the prime minister would be responsible if the coal miners were out on strike 'Out of Context'

Mr. McGahey, meanwhile, appeared to be retreating in the face of the controversy created by his original statement. charged that his remarks had been "distorted and taken out of context." "I would not ask any troops

to disobey orders," he said, add-ing that he merely wanted to be sure the troops would be aware that they would be doing work normally done by miners. "This is not motiny." he said. "This is only allowing other people to understand the purpose for which they are employed. In his original statement, the

Communist leader was widely quoted as having said: "It may be that they will call in troops to move the coal, but troops are not all anti-working class Many of them are miners' sons sons of the working class. "As far as I am concerned. if

the government employ troops. If necessary I will appeal to them to assist and aid the miners. You cannot dig coal with bayonets."

Avalanche in Turkey

ISTANBUL, Jan. 29 (AP)-Twelve persons died Saturday in an avalanche near Mardin in eastern Turkey, officials said. Seven persons were injured. It was Turkey's third major avalanche in a week.

authority, since 600,000 of the 1.5 million people of Jordan are Palestinians. West Bank nationalists of political sophistication refrain from placing the entire country in the enemy camp. Most favor a form of union between the West Bank and Jor-dan. "But I didn't say the Hashemites," said Mayor Elias N. Fred; of Bethlehem, referring to

the Jordanian royal family. But for the time being, negative feelings on the West Bank have elation born of the war last October and its diplomatic after-math. Israeli officials concerned with Arab affairs and militant Arab leaders agree that none of the sentiments expressed are new; only their open expression is.

More significant, in the eyes of Israeli officials, is the fact that those who had made no public utterances in the past are coming forward. One of them is the Mufti of Jerusalem, who is the Moslem religious leader and chief religious judge of the West Bank. Known for his antagonism to Israel and Jordan, he has throughout the occupation reframed from public statements. But over cups of Arabic coffee in his East Jarusalem residence,

the Mufti, Saad-Eddin el-Alami,

said:

"I believe we are under occupation and we are not free to say what we want or don't. But. I myself, I want the Arabs and Israelis to be good neighbors when the Israelis leave we shall say what we want. Even King Hussein said he will ask the population what they want. "I am in prison now. What will be in the future we can say when Israel leaves our part."

Annexation Issue

The Mufti spoke strongly against Israel's annexation of East Jerusalem, which, unlike the West Bank, has been incorporated into the territory of its conqueror. "Jerusalem must be divided as it was before 1967," the Mutti said. The simplest would be to put walls between the two parts." The hope raised by the October war is attributed by the people of the West Bank to the military performance of the Arab armies, stronger unity of the Arab nations-particularly the support of the producers of petroleum, and world reaction to the political use of oil-and Israel's apparently greater willingness to make conessions in return for peace. The war is viewed as a victory

for the Arabs by all levels of the West Bank population, but for different reasons. The ordinary citizen thinks of it as a clear-cut military victory. The crossing of the Suez Canal by Egyptian forces is, on that level, the signal event. At a politically sophisticated level, the war is regarded as a victory not over Israel but over Arab feelings of inferiority to Extreme views calling for a re-

turn to Jordanian rule or pushing the Exraelis into the sea find little expression, A Palestinian state which would, for the time heing at least, accept a separate Israel is the consensus. But the manner of establishment, character and leadership of such a state remain vague and widely difforentiated. Conciliatory nationalists talk

about a binational, democratic state. The idea is rejected by many who fear it would dominated by Jews.

Oil Nations Seen Not Backing Bid by Saudis to Cut Prices

VIENNA, Jan. 29 (UPI). - Algeria would not lower the pr Sandi Arabia's bid to reduce crude oil prices was unlikely to win the backing of other oil-producing nations, officials of the Organization of Petroleum Exporting Countries said today. At least two of Saudi Arabia's

11 OPEC partners—Iran and Algeriz—opposed a reduction, the officials said. OPEC Secretary-General Abderrahman Khene, of Algeria, refused to comment on the Saudi proposal, but he said in a lecture yesterday that came oil prices might, in fact, go up if the in-dustrialized nations of the West

did not curb inflation.
The head of OPEC, whose 12 members produce 85 percent of the world's oil imports, said that despite the tripling of prices since lest fall, crude oil had not reached its real market value,

- Supply and Demand "After a long period of stag-nation in prices, the oil exporting countries have now submitted their merchandise to the laws of supply and demand. But they have not yet completely done so," Mr. Khene said.

The Saudi oil minister, Sheikh Ahmed Zaki Yamani, Sunday.

anned zam ramani, over high crude-oil prices and said that King Faisal was preparing "very important steps" to reduce crudeoil prices to avert worldwide eco-nomic difficulties.

However, any decision to lower price levels could not be made by Saudi Arabia alone, Sheikh Yamani said. OPEC officials said that the Saudi price-reduction proposals were not being discussed by

OPEC's Economic Commission, which is meeting here to discuss long-term price policy. OPEC's members are Abu Dhabi, Algeria, Ecuador, In-donesia, Iran, Iraq, Kuwait, Libya, Nigeria, Qatar, Saudi Arabia and Venezuela.

Rift Seems to Widen : TOKYO, Jan. 29 (Renters).— A rift between Algeria and Saudi Arabla over oil-price cuts ap-peared to widen today, with the Algerian industry and energy minister cautioning Japanese oil leaders not to listen only to countries favoring price reductions.

The Algerian minister, Belaid Abdessalem, and Sheikh Yamani met members of the Petroleum. Federation of Japan for two hours today.

The federation quoted Shakh Yamani as saying that King Faisal would send personal letters to the other five Persian Gulf oil states to try to persuade them to agree to a reduction in

Pause Occurs In Fighting In Cambodia

PHNOM PENH, Jan 29 (AP),-Fighting along Phnom Penh's southern front decreased as attacking government forces from the north and east paused to allow artillery and air strikes pound rebel positions, the command reported today.

Insurgent gunners fired a number of rounds of 150-mm artillery toward Phnom Penh but the shells fell more than a mile short, hitting near a coconut plantation, two miles south of the city, military sources said. Some houses were burned but

there was no report of casualties, The Cambodian command reported clashes at two points near Route 38 at Prek Roteang, nine miles south of the capital. One government force is pushing southward in an attempt to

force groups of insurgent infiltrators back across the Prek Thnot River. A second government column is advancing toward the Communist rebels' flank from the east.

Guns Placed on River

Where the Prek Thnot River makes a northerly hulge toward Phnom Penh, Khmer Rouge gunners have positioned at least two captured U.S.-made 105-mm artillery pieces. From this point the rebels have shelled the city almost daily,

On vital Highway 4 west of the capital, insurgent forces attempted to expand their two-mile strip of the road by attacking government positions at Trapeang Kralocung, 40 miles from Phnom Penb. The road—Phnom Penh's link with the sea-was still cut at two points along its 147-mile length, military sources said.
An army source said insurgent forces were using buildozers to

dig up the roadbed but two of the machines were destroyed by air strikes In South Vietnam, government and Communist forces clashed in heavy fighting before dawn to-

day to the northwest and south-

west of Saigon. In one engagement just off national Highway. 1 about 30 miles northwest of Saigon, field reports said a battalion of as many as 200 North Vietnamese and Viet Cong troops moving under cover of mortars assaulted an outpost being built by about 100 government militiamen north of the district town of Trang

South Vietnamese bombers and actilizry pounded the Communist force and a government communique claimed that 50 were killed and 25 weapons were captured. Government losses were put at eight killed.

To the southwest, the Saigon command said, Viet Cong forces attacked government militiamen defending a hamlet located about 10 miles from the Cambodian border. The Viet Cong were driven back, leaving 22 bodies, the command said.
Lt. Col. Le Trung Hien, chief

spokesman for the command, said two children were killed in the fighting and six government militiamen and three civilians

nationals ashore on some of the Saigon Arrests countries, including China and Hong Kong, fish in the Paracels, A Correspondent Of The N.Y. Times to go ashore. But the South Vietnamese said the Chinese SAIGON, Jan. 29 (NYT).-The

According to officials at the U.S. Consulate in Nha Trang. Mr. Markham was taken into custody in Binh Dinh Province and was being held in the province capital of Qui Nhon, about 260 miles northeast of Saigon.

American and South Vietnamese officials said they expected the correspondent to be released Although Mr. Markham's notes

and films were reported seized by the police, a South Vietnam ese official familiar with such matters said normal procedure called for the materials to be returned to the correspondent after inspection by the Information Ministry.

Detention of Mr. Markham was

the latest in a series of government sanctions against journalists who have tried to report on life in Viet Coog areas.

Tito Going to Baugladesh NEW DELHI, Jan. 29 Reu-ters).—President Tito of Yugoslaria left here today for Bangladesh after a six-day state visit to India. He will later go to Nepal.

Long-Range MIRV Capability

U.S. Says Russia Tests New Missile

By John W. Finney

WASHINGTON, Jan 29 (NYT) -The Soviet Union conducted its first long-range tests of a new intercontinental missile with mul-tiple warheads last Friday and Saturday, the Defense Department announced yesterday.

The chief Pentagon spokesman,

Jerry W. Friedheim, described the test firings of the SS-19, an intercontinental missile comparsble in size to the U.S. Air Force's Minuteman, as a significent milestone in the Soviet program to develop multiple warheads that can be directed to separate targets. These warheads are known as MIRV's, multiple independently targetable re-entry vehicles.

But it remains the assessment

of the Defense Department, Mr. Friedheim said, that the Soviet Union will not have a missile force with such warheads in operation before 1976. Mr. Friedbelm said that two of

the SS-19 missiles were test-fired 4,500 miles from the Soviet missile research center at Tyuratam, near the Aral Sea, to a target area in the Pacific Ocean, 850 miles northwest of Midway Is-land. It appeared, he went on, that e- 's missile carried multiple warheads.

J.S. Modifications

The United States has had missile forces with moltiple warheads deployed since 1970, and it is still modifying Minuteman and Poseldon missiles to carry these The Pentagon had been predict-

ing for four years that the So-viet Union was on the verge of developing multiple warheads .hat could be fired at separate targets, but it was not until last spring that the first flight tests were observed by the United States. At the time, three of the new strategic missiles that were being developed by the Russians were given short-range tests within the Soviet Union with multiple war-heads. This was disclosed by Secretary of Defense James R.

Schlesinger in August. That the Soviet Union could fire such warheads raised concern in Pentagon circles that the Soviet missile force might gain the ability to attack Minuteman bases in the United States.

This, in turn, has been the main technological impetus be-hind Mr. Schlesinger's current emphasis on developing "counter-force" weapons capable of attacking military installatious, iocluding missile silos in the Sovict Union.

The SS-19 is one of four new strategic missiles being developed by the Soviet Union. The tests last weekend marked the first time that one of the missiles had been fired the full dis-

cance of the missile range. Mr. Friedheim noted that a "full-range test" was necessary to deployment of a missile and said the Pentagon believed that the Soviet Union was "well along" in its test program for the SS-19.

Ray Wins Review Of Guilty Plea in Death of Dr. King

CINCINNATI, Jan. 29 (AP).-James Earl Ray, 41, confessed slayer of Dr. Martin Luther King jr., won a review of his guilty plea from the Sixth U.S. Circuit

Court of Appeals today.
The appellate court, in a 2-1 decision, remanded Ray's petition for a review to the U.S. District Court in Nashville, Tenn. The appeals court accepted

Pay's contention that he was given improper legal advice in his 1969 guilty plea. It cited two letters written to Ray by Percy Poreman, his former attorney. The letters revealed arrange-

ments for Mr. Foreman to receive \$165,000 from royalties on publications and movies based on Ray's case. Also, the letters in-dicated that Ray's share of the money would be delivered only on his plea of guilty with "no embarrassing circumstances to take place in the courtroom." Ray is serving a 99-year sen-tence in the Tennessee State Penitentiary for the April 4, 1968. slaying of Dr. King.

Poll Finds Democrats Favored in 1974 Vote NEW YORK, Jan. 29 (UPI) .-

Louis Harris poll released yesterday said voters would favor Democratic candidates by a 50 percent to 32 percent margin if this year's congressional elections were held in January instead of November. While a September poll gave

the Democrats a 53-to-31 percent margin, "the lead for the Democrats is still massive." the survey said. "There seems to be no doubt that the GOP is in deep trouble in the off-year elections as this key political year

Chlorine for Water Running Short in U.S.

WASHINGTON, Jan. 29 (Reuters).—The United States faces a serious shortage of chlorine to purify drinking water, govern-ment officials said today.

Officials of the Commerce Department and the Environ-mental Protection Agency told the Senate Commerce Committee they want standby anthority to allocate chloring to ensure that water systems get adequate supplies. Chlorine is also widely used in the manufacture or processing of plastics, pulp and paper.

now the principal Soviet Inter-

continental missile. The Soviet Union gave advance warning of the missile tests last week by declaring the target area unsafe for shipping and aircraft. The shipping restrictions were lifted yesterday, but Mr. Fried-

It has been the Peutagon's belief heim said that Soviet tracking that the SS-19 is designed as a successor to the SS-11, which is raising the possibility that further

tests were planned.

The Soviet tests last Friday and Saturday were observed by U.S. ships, planes and submarines in the target area in the Pacific and presumably by radar and sate.-lites, following the launchings

U.S. Suit Seeks Forfeiture Of Bulgarian Fishing Boat

The United States demanded forfeiture of the Bulgarlan trawler Limoza yesterday, charging that the 269-foot vessel was fishing within the 12-mile limit.

The demand was made in a civil complaint, filed in addition to criminal action already under

The Limoza was captured by the Coast Guard in hot pursuit early Saturday 13 1/2 miles off Little Egg Harbor, N.J. as It headed out to sea. The ship was brought to Governor's Island here, headquarters of the 3d Coast Guard District.

It is being held pending out-come of the criminal complaint. to he heard Feb. 5, which could bring a one-year fail term for Capt. Peter Todorov Donchev, forfeiture of the vessel and a fine of up to \$100,000.

The statute under which that complaint was filed also permitted the United States to institute a civil action, which it did yes-terday. This called specifically for

Georgia Rejects U.S. Amendment. On Sex Bias

ATLANTA, Jan. 29 (AP),-The Georgia Legislature rejected the proposed women's equal rights amendment to the Constitution yesterday when the state House Representatives voted, 104 to

70, against it.

The vote came after a 3 1/2hour debate, during which oppo-nents argued that the amendment, designed to make men and women coust under the law. would subject women to military drafts and unisex tollet facilities and would sanction homosexual marriages.

Rep. Dorsey Matthews said the amendment is "so stinking of Communism, it's just pitiful to think of doing comething like this to America."

He sald it would "lower our ladies down to the level of men," legalize homosexual marriages, require wives to provide 50 percent of a family's support and create bavoc in the prisons by preventing segregation of the SEXES." Thirty-two states have ratified

the amendment; 37 are necessary to make it a constitutional amendment. States have until 1979 to act on the amendment, and legislatures, such as Geor-gia's, which have rejected it may reconsider the amendment at any

Rep. Grace Hamilton, one of two women in the Georgia Hou-se, argued that the amendment would require only that men and women be treated equally under

Flooding Ousts 500 In West Tennessee NEW YORK, Jan. 29 (AP),-

The surging Mississippi River. flooding thousands of acres of lowlands in west Tennessee, has forced about 500 people to fles their homes.

The authorities said the river bad spilled over about 30,000 acres of farmland. A spokesman for the National Weather Service said the river would crest at Memphis on Sunday at 36.1 feet, which is 2.1 feet above flood stage at the city. The river stood at 34.8 feet yesterday.

NEW YORK, Jan. 29 (AP).- tackle, apparel, furniture, appurtenances, cargo and stores. The "cargo and stores" could mean "all fish illegally taken or retained from the established fisheries zone contiguous to the territorial waters of the United

A Future for Cyprus

the death of Gen. George Grivas-with the Greek government calling him a national hero, for instance, yet refusing him a funeral in Athens—are really reflections of the ironies that history has inflicted on Cyprus. For that island, to which Grivas devoted so many years of struggle, represents one of those tragedies of time and circumstance that often baffle modern statecraft with conflicts of race, culture or creed-like Ireland, like Palestine, like the lands of the Basques and the French Canadians. And It is perhaps the most paradoxical element in Grivas's career that his death may bring peace, and a degree of harmony, to Cyprus.

The island was Greek, conquered by the Turks and partly settled by them-then turned over to the governance of the British. When the world no longer was content to regard an act of force, military or diplomatic, as a final answer, the Greek Cypriots turned on the British under the leadership of Grivas. But British withdrawal from Cyprus could not of itself end an historic dilemma, any more than it did in Ireland or Palestine. Modern Turkey, which had already lost most of its empire, did not want-as Grivas wanted -the island turned over to modern Greece. The Turkish Cypriots did not want to be overwhelmed by their Greek neighbors.

Cyprus, under United Nations supervision, became independent, on the assumption that

The apparent contradictions that surround the Turkish minority would receive special safeguards. Archbishop Markarios, the Greek Cypriot President, sought to achieve some kind of balance, but the exponents of Enosis, union with Greece, continued to fight on. It is now believed that Grivas lived on to become more important than the cause he represented: that his death will permit the kind of accommodation between Greeks and Turks in Cyprus which would end the long struggle between them. Both Greece and Turkey are willing to accept such an accommodation, and thus Cyprus may look to a peaceful future,

> If this should be the case, it will give hope to many lands overlaid by many historic bitternesses, and plagued by those who seek absolutist goals by force. After all, it is not impossible to reconcile ethnic, linguistic and cultural differences within a community: Switzerland achieved unity while maintaining diversity. German-speaking Alsace is very much a part of France. It is not essential to a strong national life to suppress the vitality of minority cultures-nor is it necessary for such cultures to fragment a nation. George Grivas toiled to bring Cyprus back to mainland Greece - and in the process helped create a nation. For him, that would be a disappointment, for the Cypriots it could well be a satisfactory compromise. for the world it may be a useful signpost to more rational national life.

A Time to Speak

President Nixon's political situation becomes each day more untenable. The widespread confusion and lack of public trust in the administration's statements concerning the oil shortage only demonstrate that the essential links of confidence between President and people are severed.

Yet Press Secretary Ziegler is once again saying that Mr. Nixon "is determined not to become consumed for another year by the Watergate matter." That has the same significance as a man with a grave illness announcing that he is determined not to be consumed by his disease. Mr. Nixon's continuance in office is no longer a matter to be decided by his own determination.

What is decisive now is the courage, integrity and devotion to the public good of the members of the House and Senate and of leading citizens in private life. It is a time for men and women to listen to their consciences. It is a time to speak and speak plainly.

There is little doubt in Congress that Mr. Nixon was deeply involved in the Watergate scandals; but there is also a widespread feeling that it would be impolitic to come out and say so.

Mr. Nixon's remaining strength, such as it is, rests partly in public ignorance and confusion. Much of the public, unfamiliar with the procedures of impeachment, is uncertain about the political costs and implications of removing a President who has violated his oath of office. As congressmen

discovered in visiting with constituents during the past month, many voters are looking to their representatives and eenators to exercise their best judgment and to give leaderehip to the country on this difficult problem.

If men and women of influence in Congress spoke their minds boldly and forthrightly, Mr. Nixon would be unable to fall back on such gasping pretenses as "Operation Candor." There would be an end to offensive and embarrassing insults to everyone's intelligence such as Vice-President Ford and Senate Minority Leader Scott have inflicted upon the public in recent days with their tales about mysterious evidence that would exonerate Mr. Nixon but which he refuses to release.

Some plain-spoken leadership is beginning to emerge. Rep. Thomas P. O'Neill, the House Majority Leader, rightly stated this week that the country no longer regards Mr. Nixon as a credible President and that it would be "in the best interest of the nation" for him to resign now. Rep. Wilbur Mills, the influential and conservative chairman of the House Ways and Means Committee, has expressed a somewhat similar judgment

For more than nineteen months, the Watergate scandal has been polsoning the public life of the nation. This squalid, demeaning performance has gone on much too long. It is time for the leaders of both parties in Congress to do their duty.

THE NEW YORK TIMES.

International Opinion

Paris Versus Washington

Tacking about with a minimum of precautions, France appears to be turning its back on Europe, at least for a few weeks, in order to try its luck in the Persian Gulf . . . But just as Jobert was about to leave for Saudi Arabia, Kissinger deliberately showed his disapproval . . . Under the circumstances, a confrontation between Washington and Paris seems almost inevitable, since their conceptions conflict at all levels, tactical, energetic and commercial. Will Mr. Jobert, who is a few lengths ahead of his competitors, manage to gather substantial, irreversible advantages? . . . We will have to act fast, because our rivals won't remain inactive. In case of success, France will have secured for some time the good functioning of her economy. But this might well be at the price, not only of a new delay in the strengthening of Europe, but also of a weakening of Atlantic solidarity.

-From Les Echos (Paris).

The UN and the Paracel Islands

On the Paracel islands in the South China Bea, a conflict of sovereignty between South Vietnam and China has been decided by force of arms, with the numerically superior Chinese gaining control. The cause of the

conflict was not so much fishing rights, cited as the ostensible reason, but the seabottom oil reserves suspected in the area. The affair was a classic example of the Security Council'e impotence to enforce the UN Charter's stipulation that such conflicts be settled peaceably, whenever one of the major powers with the right of veto on the council is involved as the aggressor. -From the Neue Zuercher Zeitung (Zurich).

Brezhnev's Visit to Cuba

He (Castro) is receiving the Soviet leader (Brezhnev) at the very least as a dependent if not a satellite of Moscow's power. Yet one of Mr. Brezhnev's main concerns will be that his visit should not offend the United States but might even serve to improve Cuba's relations with its unyielding great neighbor.

The talk will be of coexistence, of the imperatives of Mr. Brezhnev's own détente with the United States, to which Dr. Fidel Castro's surviving revolutionary ardor must prudently accommodate itself. The rich Communist uncle cannot be expected to go on meeting the bills if the Soviet world outlook of today is to be disregarded.

The time is past for Dr. Castro's querulous anti-Americanism to pollute the new atmosphere of goodwill.

Sauce for the Gander Also By C. L. Sulzberger

against Israel.

war against Israel.

DARIS.-Whatever happens at President Nixon's conference in, the kind of united front both he and Secretary Kissinger have been proposing to our allies has seemingly vanished long before the opening session.

France and Britain are racing around among oil producers try-ing to set up long-range barter deals which include massive sales of weapons. Italy has been making googoo eyes at the Arabsbut so far has achieved relatively little concrete progress-not for lack of trying but it isn't in the modern arms business. West Germany appears embarrassed about but seems on the verge of a massive tank deal with non-Arab

France's Entry

Washington dislikes bilateral don's trading European arms (and machinery) for Arab oil. But Washington, as most Europeans are quick to point out; has shared with Moscow the dublous honor of being the leading weapons supplier in the Middle East. And U.S. supplies go not only to Israel but to Saudi Arabis, Jordan, Lebanon and Iran.

The biggest entrant into this superpower competition is France, which had already done good business with Libys and other lands. The French are really losing out in the military aircraft race because they haven't pro-duced a new type since 1965 and their next won't be saleable for years. Yet they've been unloading planes that are no longer the latest thing—like the Mirage—as well as their excellent tanks.

Michel Jobert, the brilliant and quietly determined French foreign minister, is now travelling about the Arab world. He has already guaranteed access to almost a enth of Saudi Arabia's annual petroleum output for the next 20 years. This notably eases France's balance of payments problem and assures new markets for weapons and machinery, thus damming threats to industrial unemployment here.

Just what countries like Saudi Arabia or Kuwait want with France's excellent AMX tanks is hard to reckon. Kuwait might consider them useful as protection against Iraq but, since Egypt

got out of Yemen, Saudi Arabia more intimate consultation with isn't threatened by anyone. There is no more active war in Palestine but there doesn't seem to be any tight guarantee that new the beginning.

French weapons sold to the Saudis can't somehow be used However, although such a guar-

antee was given in the case of French military aircraft sold to Libya, it wasn't fully honored. There is evidence some Libyan Mirages were used in the October Moreover, since Saudi Arabia has been the treasurer for Egyptian arms purchases, Paris seems to reckon that its deal with King ing two big new markets. A freighter was loading AMX tanks

in France for Saudi Arabia the day the October war began. It sailed with its cargo-without any trouble. Jobert's trip marks no new turn in French policy. The new turn comes in England, now in the middle of a massive crisis. Since the last Israeli-Arab war, Prime Minister Heath has indicated impatience with the Israelia

and with U.S. efforts to promote users committee to face the Arab oil cartel The London Foreign Office is traditionally sympathetic to the Araba. Now Heath has promoted Ian Gilmour, generally held to be pro-Arab, to defense minister Some observers speculate that one reason was to facilitate barter

deals exchanging British arms for Washington's known discontent with these European develop-ments is met with strong rebuttals. The Times of London published a comment on Friday objecting to "Dr. Kissinger's practise of seeing Sir Alec Douglas-Home in a room at London Airport" as "tiresome and somewhat

"Perhaps something is wrong with his (Kissinger's) program or his standard of values. Certainly there is little dignity for either in having Str Alec attend on him in some waiting room." Such reactions seem to have roduced somewhat lower Washington requirements for the forthcoming petroleum conference

and induced a more flexible and

tolerant standard vis-a-vis the

European allies. One wonders if

this side of the Atlantic might not have eased the problem at

Although we object to the theory of bilateral oil-for-arms trades, the Europeans are in far the more desperate need of fuel than we. It is hard to argue sgainst their claim that what's sauce (in terms of Middle East arms) for the American goose is

Robert G. Kaiser From Moscow:

In the hookstores, lots of books, but almost never the classics... and for the Soviet workers, a new meda

MOSCOW Soviet bookstores seldom have anything in stock by Tolstoi, Dostocyski or. Gogol. Anyone who asks in a bookshop for a copy of Pushkin's "Eugene Onegin" is inviting the clerk to call for the men in the

Russian bookstores have lots of books, but they almost never have the classics. There is a chronic paper shortage, and a huge amount of the paper available goes to political tracts, which are always available in abundance. A new edition of the classics sells out—literally—in hours.
In December publishing author—

ities took this pattern to its illogical extreme. They published two modern classics without putting them on public sale at all.
Only members of the Soviet Writers' Union and a few other privileged citizens had a chance to get a copy of a collection of poems by Osip Mandelstam or a collection of novels by Mikhail Bulgskov. Even within these privileged circles there was a struggle to find a copy of either. Those anxious to buy the

oems of Mandelstam—considered by many the leading Russian poet of the century, but not published for 40 years because he fell afoul of Stalin and died in a prison camp—maintained a line for 10 days outside the special Moscow bookstore for Writers'

The lipe was unofficial but strictly respected. Once one was registered on a list, he or she had to return at regular inter-vals and to take a turn "on duty" to keep the list and make sure no one tried to jump the queue. Fewer than 500 copies of the Mandelstam book were sold.

In Leningrad the special Union of Writers' bookstore had 120 copies of the Bulgakov novels to distribute among more than 400 writers. The board of directors of the store haggled for four hours to decide who would get the cherished books, allocating them first to former friends of Bulgakov, or critics who wrote on his books. Bulgakov was a sur-realist who also got into political trouble and wasn't published for

'Godfather' Give-Away

By William F. Buckley Jr.

NEW YORK -I am greatly refreshed by the words of Mr. Charles Binhdorn, chairman and chief executive officer of Gulf and Western Industries, which, for reasons I do not wholly understand, owns "The Godfather."

Mr. Blubdorn is just back from the Middle East and it occurred to him that "The Godfather" is showing in Iran for less than "Dr. Zhivago" 10 years 2go. The reason is that the distributor is reoutred by law not to sell at a higher price than was then current, never mind inflation, Mr. Binhdorn points out that the government of Iran has not done anything conspicuous by way of holding down the price of oil, its principal export to the United st large. "If I was to bid 1 dollar for a barrel of their oil," he said, "they'd turn me down I think the price for The Godfather is

oil is now selling for 10 times what it sold for 10 years ago. The Rationale Mr. Blubdorn then mused

too low." And indeed Iranian

about the excuse given by the Iranian government for holding down the price of movie tickets. That way, says the government poor people can afford to see the movie. Mr. Binisdom is not in the least opposed to poor peo-ple seeing "The Godfather," but he wonders why Gulf and Western should subsidize them. There is no argument, he points out, sgainst an Iranian Marshall plan -they've got the money. There are a "billion people" in India

who don't get to see movies because they are too poor. Why doesn't Iran subsidize the price of movies? The United States. spent 20 billion of those old dollars to help Europe et al after the war. Why shouldn't Iran now turn philanthropist?

And of course in talking about Iran, we single out the most obliging of the oil-exporting nations in the region. The others for the most part participate in the boycott that has caused the great scarcity from which, in greater and lesser degree, the world suffers. But all the world suffers from the extertionist increase in the price of oil, and Iran most cheerfully led the pack a few weeks ago by selling oil at auction and getting for it a price more than double the price of only a few weeks before. It requires hard study to sort

out the ethical and economic strands in the tangled question. But one begins by observing that the price of oil is high only in part because there is a physical shortage. That shortage is at least for the short term mostly insignificant. What there is is a contrived shortage, and this is the result of a clear act of economic aggression by the Persian Guf oil states. It is a great worry how to deal with it.

The easy way is to throw them Israel, and swallow their price increases. That is no way to get either strategic satisfaction or strategic results. The appetite for control of that oil by the Soviet Union will not diminish with the humiliation or even extinction of Israel. (And the vulnerability of Japan and the Western powers will not diminish until an alternative source of fuel is developed, and we are talking 10-15 years.)

The figures for 1973 are hard to come by, but it would be approximately correct to say that Saudi Arabia, Kuwait, Libva, Irag, the Emirates, and Iran among them imported some 7 billion dollars in goods. It would seem to me perfectly fair-just

price of all goods purchased be have raised the price of their of by a corresponding percentage Thus a tractor that used to cos say, \$4,000, would be billed e \$8,000, after the last doubling i the price of oil. (Now this of course would re

quire a great deal of coordina tion. And that is never easy But the impulse is certain; there, because the least depend able of the victim-states-France for instance—could be made to understand that, in the absence of a response of some kind, the situation is going to go quite ou of hand.) Here is one to chew on. I have

heard it projected that by the end of 1974, the Persian Guil states will have \$70 billion more than they can possibly spend towards their own orderly development. By the end of the decade, they would have reserved of one trillion dollars. With our trillion in your pocket, you can buy all the stock at current prices in every market in the

But of course money is no good unless it can buy you something. And for a very long period, the non-Arab world is going to be the producer of the goods the ownership of which distinguishes be tween the poor and the rich nations. And it is something of the order of the Blubdorn forms lation that we will need to seek out.

The International Result Tribune welcomes latters from readers. Short letters have a better chance of being published. All letters are subject to condensation for space recsons. Anonymous letters will not be considered for publication. Writers may request that their letters be signed only with initials, but preference will be given to those fully signed and bearing the writer's complete address.

— Letters -

That 'CIA Hunt'

Perhaps Bernard Nossiter would not have written that unflattering piece on me (Jan. 23) had I been more careful in my drafting of the letter to The Times, and had I gone more into detail when he called me about it on the telephone. But may I now set the facts straight?

First, the headings: 'Tale of CIA Hunt in U.K. Lacked Only Facts" and "American'e Letter to Times Admits Union Operation Was a 'Suspicion.'"

Much zore than a suspicion was behind the Times story to which my letter was a reply. The information shown to me by the Times reporter appeared to be hard fact, originating from offi-cial sources. As my letter to The Times stated, my suspicions were only that the information might not be the truth, and that the embassy, alas, was being truthful

in its denial. Second, and more important, Mr. Nossiter says explicitly that I gave the information to The

Times understandable, eince the Times piece was certainly so worded as to make it appear that this was the case. The truth is that I gave no information to The Times. I gave only opinions, making it clear that that was all I had, opinions, with no facts whatever to back them up.

Finally, I am not a "self-styled CIA consultant" nor do I "make a living in London." I have had no connection with the agency since 1957, and I have long ago made my "living"-not in London but in the Middle East and Airics.

Much has happened since the original piece appeared in The Times—much, that is, besides the wave of letters to The Times which disregard the embassy denial and denounce the CIA. Official agencies, newspaper representatives, and my own associates have spent much of the past week trying to run down the sources not only of the Times story but of similar ones which have been offered to the BEC, ITV, end most London newspapers.

now. I for one am convinced that the embassy's denial is the truth and that there is a concerted effort from somewhere to add just one more element of dissension to this already turbulent society. This is the sort of thing the CIA and other agencies qualit to be running down-it is what they are for MILES COPELAND.

London.

Query for Buckley

Re "Solshenitsyn and Questions for the West" by William F. Buckley, IHT, Jan. 17.

While agreeing with Mr. Buckley that it would indeed be a tragedy for any harm to befall political views, I can't help but wonder why he has not advocated immediate cultural and economic sanctions egainst repressive regimes in Chile, Greece, South

3 Are Sued for Film 'Massacre in Rome'

By William Tuchy

ROME, Jan. 29 .- The producer, director and writer of the film "Massacre in Rome," appeared in court here today charged with the criminal libel of Pope Pius XII. The trial was postponed until Feb. 12.

In deciding the case, the court may have to pass the first legalindement ever made on the actions of a Catholic pontiff.

"Massacre in Rome," produced by Carlo Ponti, directed by George

Pan Cosmatos, and written by a Breoklyn-born historian, Robert Katz, 40, is a fictionalized recreation of the Nazi Ardeatine Caves massacre.

Niece of Pius Spes The defense won the two-week postponement today when Mr. Katz's attorney said the historian was awaiting important documents from the United States.

An attorney for Contessa Elena Rossignani, 58, a niece of Pius XII. who brought the charges

Tom Pettit, NBC News married to another nearby farmer, correspondent, was the narrator.

The program, for which NBC constructed a 15-by-25-fcot model He and his family moved into of a camp sought to document the account of the Soviet penal system by Alexander I. Solzhenowned land of the Centenary itsyn in "The Gulag Archipelago, 1918-1956." The book was published in Russian in Paris last month acres and put up for sale. He and excerpts have appeared in The New York Times. A complete translation is to be published by Harper & Row in May.

2. Years in Labor Camp

One of the participants in "Special Edition" was Dr. Michaci Devenis of Los Angeles, who was arrested in Lithuania at the time of the Soviet take-over of that independent republic in 1940 and was sent to lumber camps near the Arctic Circle. "Three men came to my farm."

are now occupied by young people. Humphrey says he feels confident he recalled, "and sald to come of the white farmers' will to stay. with them for half an hour. But 1 never came back for two

> Describing his camp experiences. Dr. Devenis sald:

"I had to go with the other prisoners to the woods and cut the trees or peel the bark from logs. It was very hard because the required work quotas were set very high. If a prisoner didn't fulfill his norm, he was accused of sabotage or his ration Republican Army men today machine-gunned a Royal Air

Myron Myclo, of Merrick, Long. Island, said he was a member of a nationalist group fighting against the Soviet authorities in the Ukrains after World War II when he was captured in 1947. He spent nine years in Siberian camps, most of the time in Kolyma, one no the most notorious camp complexes.

In a description of camp life earlier novel, "One Day in the Lifa of Ivan Denisovich" Mr. Mycio recalled in broken English:

"When they take us to work, we have to keep five men together by hand, and we can't talk; we have to keep our head down, like this, and walk. About 30 prisoners were in a brigade, with five or six convoys and about

Another participant in the rogram, Roman Brackman of

NEW YORK, Jan. 29 (NYT). Chappaqua, N.Y., told of having -Fouc men who served terms been arrested in 1950 after he had sought to leave the Soviet Union

> "It was probably around one or two o'clock at night when I MGB (as the security police was then called a captain a lieutenant, and three soldiers with rifles. They ordered me to get up and get dressed."

Mr. Brackman was among the men under forced labor who built an entire city in northern Siberia, the nickel and platinum mining center of Norilsk

"We were taken for about five kilometers [three miles] from the No. 4 camp to the Norilsk construction area," he recalled. "We were brought there in long columns of prisoners, five in a row, probably 200 in a column, surrounded by dogs and guards bayonets and machine

The most recent experiences were depicted by Ynri Handler of Woodside, Queens, who was arrested in Leningrad in 1968 for criticism of Soviet policies and spent three years in camp. He said he and a group of friends were arrested as they were drafting a letter of support for the Czechoslovaks during their 1968 experiment in Communist liber-

They managed to break me during interrogation-not physically. I mean," Mr. Handler said, The KGB [secret police] now not torture political convicts. You are situated in a small cell, in a cold cell, in a raw cell, and you stay in that cell during several months

"I did not say one word to the interrogators for almost two months. They said they would arrest my wife. They said they would send me to a psychiatric hospital. I was afraid of it, and one day I began to talk."

The Soviet authorities have denied that mental hospitals are being used to hold dissidents hecause of their political beliefs.

Two Men Held In U.K. Murder

LONDON, Jan. 29 (AP: -Two men were charged today with the Jan. 25 murder of author James Pope-Hennessy, 57.

John James O'Brien, 23, who friends described to newsmen as a playboy on the fringes of jet set society appeared briefly in court and was ordered held for a further preliminary hearing

Police said later they had additionally charged Edward John Wilkinson, 22, au unemployed Londoner, and would bring him into court tomorrow. A third man was reported still under ques-

Mr. Pope-Hennessy, brother of Sir John Pope-Hennessy, director of the British Museum was beaten;

had protested that she wanted swift action to suppress the movie, which she found offensive to the memory of the Pontiff,

In March, 1944, Italian partisans exploded a bomh in Rome's Via Rasella, killing 32 Germau soldiers. In reprisal, the Gestapo and Italian Fascist police rounded up 335 Italian men and executed them in the Ardestine Caves outside Rome.

In his book on the massacre, "Death in Rome," Mr. Katz suggested that the Valican had knowledge of the impending reprisals but did nothing to stop

His screenplay for the movie creates the role of a fletitious priest, played by Marcello Mastroianni, who tries unsuccessfully to persuade high nfficials at the Vatican to intervene to stop the executions.

A Nazi colonel, Herbert Kappler, played by Richard Burton, proceeds with the killings in the movie in the face of the Vatican's indicated inability or unwilling-

After seeing the film in Rome, frs. Rossignani filed sult against Mr. Ponti, Mr. Cosmatos and Mr. Katz.

The defendants are charged with defamation and having "offended the memory of Supreme Pontiff Pius XII. 'Indecent Deformation' "The American Robert Katz."

claimed Mrs. Rossignani, "with no consideration for the true version of facts, knowing well that his information was drawn from public or anthentic sources, relates tragic events that occurred in Rome during March, 1944, with a truly indecent defor mation of reality, basing impli-cations on his individual interpretation and evaluation, lacking in critical consideration, in a way that the historic outrage coincides and focuses on a defamation of Pope Pins XII, accused of having done nothing to avold the massaure though informed of the retaliation ordered by the German SS."

Deputy Attorney General Gior-Santacroce examined the complaint and found sufficient grounds to present a criminal indictment. He will serve as the public prosecutor.

Mr. Santacroce's father acted as public prosecutor against Col. Kappler when he was tried after World War II in Italy and sentenced to life imprisonment. Col. Kappler is still in an Italian military prison. In a statement issued on the

eve of the trial, Mr. Katz declared: "I am amazed that for a work of history, motivated hy objective research. I am required to appear before a penal tri-'Historical Method'

"I have not defamed Pius XII. Following the dictates of my conscience and after hering examined the documents available to me, I have merely adopted the historical method, recounted a few tragic pages in the history

of Rome under Nazi domination. "I believe that Pius XII. like many other popes in the history of the church, pursued a certain religious and political policy in which—as has been explained by Pope Paul VI-an attitude of protest and condemnation would have been not only futile bu harmful."

Mr. Katz says that when his book first was published in 1967, the Vatican attacked the work "a vicious lie" and said that it would respond with documents disproving his conclusions at ut the Vatican's failure to intercede on hehalf of the hostages.

"Thousands of documents of the Holy Sec have in fact been puhlished," sald Mr. Katz, "without having produced a single document in refutation of my work & Los Angeles Times.

Obituaries

H.E. Bates, Wrote of RAF, English Countryside, at 68

British author who brought the peace of the English countryside and the wildness of war to his readers throughout the world, died in Canterbury Hospital to-

Mr. Betes-his initials stood for Herbert Ernest-became a writer in 1926 after being fired as a clerk in a leather factory.

He wrote more than 20 novels and scores of short stories. His works were translated into 16 languages and many were made into successful films and television dramas During World War II, he wrote under the pen name of Flying Officer X. After the war, he traded heroism for rural tales haunted by a melancholy charm, like "The Triple Echo" and "The Watercress Girl"

Mr. Bates was born in 1905 in Kettering, Northamptonshire. He became a cub reporter but gave that up to become a clerk to have more time to write. Wrote in Longband

From 1931, when he married, he lived in a converted medicval barn in the Kent village of Little Chart, where he wrote all his books in longhand.

"The hand is a marvellous instrument and its communication with the brain is highly important," he once said.

World War II brought him fame. As an official story writer in the Royal Air Force, he was sent on many bombing missions. The works of this period include "Fair Stood the Wind for France." "The Purple Plain" and "The Jacaranda Tree."

After the war, when he returned to his original love—the English countryside—he produced "My Uncle Silas," "Country Tales" and The Beauty of the Dead."

He also became an expert gar-dener and prize producer of begonias. He never missed a cricket match on Little Chart's village green

In 1958 he wrote one of his best-sellers, "The Darling Buds of May." This was a picaresque account of a family of junk merchants who supplemented their income as fruit pickers in the Kentish orchards. 'The Mating Game'

The book was filmed in America under the title "The Mating Game," which displeased him. "Perhaps it is a good thing." he said of the title. "Nobody will recognize it."

"Triple Echo." his last novel, written in 1970, told of a youog army deserter who disguised him-self as a girl and passed bimself off as the younger sister of his girl friend. The relationship is shattered by the arrival of a rough sergeant who is attracted to the disguised male.

The book was made into a successful movie starring Oliver Reed and the Academy Award-winning actress Glenda Jackson. "The Purple Plain," about the war in Burms, also was filmed," Loses Nitrogen "The Purple Plain," about the starring Gregory Peck.

Strike Threatens West Germany's Public Services

STUTTGART, West Germany, lan. 29 (AP).—Wage negotiatious for West Germany's 1.4 million public-service employees broke off yesterday for a strike vote when their unions rejected the government's offer of a 9.5 percent increase, or, a minimum 130 marks (\$46), in monthly earnings.

The unions, representing public transport, sanitation and of-fice workers in municipal, stale and federal governments, are demanding across-the-board wage increases of at least 10 percent. When the fourth round of negotiations ended yesterday without agreement, union chairman Heinz Kluncker said be would recommend today that preparations be made for a strike

This followed the decision by the Postal Union, representing 255.000 workers, to organize a strike vote next week following the government's refusal to go beyond a wage-boost offer a 9.5 percent. Bonn Interior Minister Haus-

the government negotiators, ex-pressed dismay at the threatening labor conflict. "The federal government is aware of the problems of workers In public service," he said. "But

nsing prices cannot be overcome

Dietrich Genscher, who headed

with wage increases."

PASADENA, . Calif., Jan. 29 (AP).—About 20 percent of Mariner-10's nitrogen gas supply was lost yesterday, just eight days before it was scheduled to fly past Venus, scientists at the Jet Propulsion Laboratory reported. The scientists were not im-

mediately certain whether the gas loss would have any effect on the mission. Mariner-10, launched last Nov.

3. is scheduled to fly by Venus Feb. 5 and Mercury March 29.

| | Total Profit 12-29-72 | \$221.00 | \$291,00 | | | | | | | |
| ľ | Percent Of Profit | 112.20 | 24.3% | | | | | | | |

Two powerful forces are at work today which make a steep rise in the price of silver seem investable.

First, the demand for silver surpes each of the last 20 years. And for each of the last 11 years the demand for silver surpassed new production by more than 100 million ownces. This excess of den strong, steady upward pressure on the price of silver. During the 1960s the price of silver rose 95%. Second, soming federal budget deficits, record behance of pay-

ents deficits, and 37 years of inflation have brought the dollar

to the brink of coffspse. Harry Browne, whose book HOW YOU

CAN PROFIT FROM THE COMING MEVALUATION accurately predicted

the first dollar devaluation in 37 years, and the record gold warms: "The alternatives are narrowed to either away inflation or a fall-scale depression."

For nearly 1.600 years, since the first silver coinage, know-edgeable investors have-burned to silver for financial protection. -because silver generally performs well in bad times. For estance, between 1932 and 1935—the depths of the Great depression—the price of silver more than tripled.

Britain, France and Woman's Work

By Alan Tillier

LONDON (IHT).—Britain with its pending equal opportuni-ties bill is a step ahead of France in trying to legislate a better deal for working women,

But the recent spotlight on Marie-France Garaud and Anne-Marie Dupuy, and their power as members of President Georges Pompidou's inner staff, illuminated a fact little known outside Paris, namely France's lead in top jobs of all kinds for women.

A decade of having the president's ear has given Mrs. Dupuy and Mrs. Garaud greater influence than some ministers. Even in France, however, such political power in the hands of women is exceptional. There is customarily token" female member of the cabinet; currently there are only eight women deputies in the National Assembly.

Yet the proportion of French women in the professions is high. Mrs. Dupuy, just named a member of the prestigious Conseil d'Etat (State Council), and Mrs. Garaud are both lawyers. Any visitor to the Palais de Justice in Paris notices the flocks of women lawyers—political lawyers like Gisèle Halimi, divorce lawyers like Suzanne Blum or specialists in crimes passionnels such as the redoubtable Germaine

The last census in France listed 1,400 female lawyers compared to 6,500 men; 12,700 female doctors (57,000 men); 12,500 pharmacists (13,500 men); and 6,500 engineers compared to 187,000 male engineers. The gap in engineering may seem huge but the 31/2 percent of women in this field is the highest percentage in the Common Market.

Women who shine in top jobs in Paris include Françoise Giraud, editor of LExpress news maga-zine, Jacqueline Baudrier, head of a TV channel, Gilberte Beaux, director of the French bank of English tycoon Jimmy Goldsmith, Francine Gomez, the boss of the Waterman pen company,

Claude Servan-Schreiber, publisher's wife and journalist, explains the situation in the professions this way: "It's part of a tradition which dates back to the 17th and 18th centuries when women had their place in the arts and at court, This aristocratic tradition became a model for the bourgeoisie, Brilliant women from this milled have always had a chance in France."

It is another aspect of the pow er of the French bourgeoisie, "On se tient les coudes" (We stick together), as Claude Servan-Schreiber put it. Solange Michau, founder of the

their jobs through alumni asso- was obliged to work for £9 a week ciations of the grandes écoles (top schools), through family or other personal contacts and sometimes through newspaper ads.

These women remain an elite. Claude Servan-Schreiber points out that a mere .7 percent of all Prench women earn \$11,000 a year and 1.3 percent between \$8,500 and \$11,000. "The salary difference between men and women at the top is even bigger than lower down the scale."

Most top jobs in management, financial control, banking and industry are off base for women, says Solange Michau. "Big business in France is conservative and misogynic. The pharmaceuticompanies are the excep-

Take away the traditionally high proportion of women in some of the professions and the omen's employment scene in France is far from encouraging. The new equal-pay-for-equalwork bill has yet to have an im-

In Britain, women's groups are looking at the opportunities bill with a magnifying glass. "One could drive a posse of prams through the list of exceptions", said Baroness Birk in the House of Lords.

Developments

Among developments in Britain have been the appointment of a woman as news editor of The Guardian and of a spokeswoman at the Foreign Office (the French counter this by pointing out that they have a woman ambassador, a woman orchestra conductor, and a woman can now become a pre-

to create.

The Tone of an Adventure Story in 'Papillon'

By Thomas Quinn Curtiss

DARIS, Jan. 39 (IHT).—Henri Charrière's account of his penal service and his incredible escape, "Papilion," an interna-tional best seller, has been transformed into an American movie (at the Quintette and the Dragon in English and elsewhere in French). Steve McQueen is the small-time Montmartre crock, sentenced for murder to hard labor in a tropical inferno; Dustin Hoffman is his fellow convict, a financier whose audacious swindles have brought him like nunishment. To dramatize prison existence

-be it in Sing Sing or on Devil's Island-requires skill. The dreary prison routine when reproduced with unrelieved realism becomes suffocatingly oppressive as has been recently demonstrated in the films distilled from Solzhenitsyn's novels. Franklin J. Schaffner has been more resourceful in extracting a motion picture from "Papillon." lending it, as far as possible, a picaresque style, the tone of an adventure

Papillon, presented as a modern Jean Valjean, is dominated by a fever for flight. His initial attempts to escape are botched. He is betrayed by bribed guardians; an abbess in whose convent he has taken refuge turns him over to the anthorities. He is punished with solitary con-finement, but his spirit is unbroken. At the end, he embarks on a raft of coconut shells on his way to liberty.

Celestial Court As the script contains an in-

serted sequence in which Papillon dreams of being arraigned before a celestial court which

Steve McQueen and Dustin Hoffman in "Papillon." condemns him for his wasted life, along at such a pace that a certain monotony arises. it is surprising that some flash-The incongruity of two Amerbacks of his Montmartre days ican stars as French convicts is have not also been included. overcome by the scheme of all-American casting to avoid con-These together with the sight of his jail mate, before being trasting accents, Steve McQueen, apprehended, transacting his haggard and aged for the role's dubious business deals - would requirements, contributes a forcehave provided welcome variety. "La Villeggiatura" (at the Saint André des Arts in Italian) considers another sort of captivity. Its scene is Mussolini's Italy in which intellectuals were regarded with hostility.

recognizable, is a wistful, black-comedy figure, the perfect foil

for the courageous protagonist.

Here, a young history professor, refusing to take the oath of alleglance to Fascism, is driven from his classroom and extled with other political nonconformists to an island. He is not harshly treated. His vills is pleasant and his wife and young child come to live with him. Meanwhile, a suave official seeks to brainwash him into accepting the new order. This false friendship begins to cast its insidious spell, lulling the rebel. But then he discovers that his fellow exites of more dedicated political convictions are often quietly murdered.

The conclusion is a rally-roundthe fleg, post Marxist message, banal and passé, hardly in har-mony with the presentation of

the professor as a firm advoce of democracy and individual rights. Though far too long as weakened by repetitions and all gish movement, the falm hole the attention with its persual picture of the Italy of yesteria Marco Leto, the director-authorized has shot it in black and white suggest a documentary. lifetime," he said.

NEW YORK, Jan. 29 (AP). James Battle Rivers, also an A \$240,000 collection of Civil War art, hidden for years in a New Orleans attic, went on exhibition here last week.

The American Heritage Society which owns the collection, called it "the most important discovery of its kind in this century."

It consists of 754 pen-and-ink drawings, pencil sketches, water colors and wash drawings by 56 artists. None has ever been publicly displayed before. The works were commissioned

in the 1880s by Century Magazine to illustrate a series of articles on the war by ranking ex-Union and ex-Confederate officers. However, the public saw only woodcut reproductions. Bruce Catton, a historian of the

Civil War, told a news conference that the war between the States was the first war in history to be 'visually presented."

Important Role

He said that these pictures had played an important part to "help imbed this war in the consciousness of the American people." Paul Gottlieb, president of American Heritage, said that the pictures will be published in a

book this fall. Century Magazine kept the collection stored for years, before putting It up for auction in 1915. Most were purchased by Gen. William Cannon Rivers. a soldier whose career ranged from Indian

fighting in the West to inspector general in the 1920s. He packed the collection in three trunks and stored them at his home on the Esplanade in New Orleans. When he died in 1930 the works went to his son tion from Mrs. Rivers and sold it to American Heritage for \$200,000. Sotheby Parke-Bernet recently reappraised it at \$240,000.

MUSIC: Reviving a Forerunner of 'Fidelio'

By William Weaver PARMA, Italy (IHT).—Italian

theaters love anniversaries, centennials, birthdays. Such occasions frequently lead to important discoveries, new evaluations of an artist and his achievement. The various "Verdi years," especially the 50th anniversary of his death in 1951, sparked vital revivals of his less wellknown operas, restoring some of them to the normal repertory. Less spectacular, but still signif-

of Perosi, Mercante and others. Ferdinando Paer, who died in Paris in 1839, was born in Parma in 1771. Three years ago, Parma's Testro Regio planned to honor his memory with a production of his opera "Leonora." Financial or organizational difficulties intervened, and it was only last week that the opera was produc-ed. "Leonora" has long been known to musicologists because

its libretto is a direct translation

icant have been the centenaries

of the same French libretto that served Beethoven for "Fidelio." Paer's opera was first performed, in Dresden, 13 months before Beethoven's and may even have been heard by the master. In any event, Paer's "Leonora" soon became—like Gaszaniga's "Don Giovanni"—another example of a good work swept away by a

How good Paer's "Leunora" is emerged clearly in the Regio's praiseworthy production. When you have washed "Fidelic" ont of your head-if such a fest can be accomplished—you can appreciate the Parmesan composer's elegant orchestration (and Beethoven may also have appreciated it), his graceful vocal writing, and even his moments. of sober passion. The aria cor-responding to Leonora's "Abscheulicher" is a long and moving scene, varied in pace and

On opening night, the Amer-

ed nervous, but she looked and acted with efficacy and brought this difficult moment off. the second of the opera's two acts, she was much more at ease and her singing took on luster, notably in the duet with Marcellina (as she is called in this version, which assigns the role to a mezzo-soprano). The big tenor aria—again, if you are able to forget Beethoven's setting of the scene—is also effective: pathetic, if not heroic, and the young tenor Paolo Barbacini, apart from a fleeting Puccinian sob or two, did well with it. The libretto is curious, at least for severe modern dramatic tastes. The drama of Fedele

and Florestano (again, to give the Italian names) is inserted within the framework of an opera buffa, and Rocco is only a slightly more sinister Don Pasquale with Marcellina and Giachino frolicking around. In the last act, when she has momentarily saved her husband's life in a dramatic confrontation, Leonora has to fend off Mar-

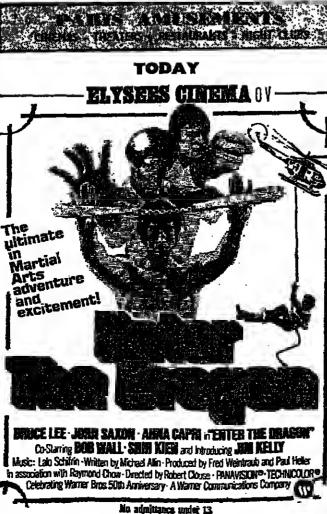

ternation of genres has an alienating effect on the drams as a whole, no matter how much the individual acenes may please Luckily, Gianni Quaranta's simple set—a cage more symbolic than menscing—and Flippe Crivelli's tasteful, restrained staging did not try to Boetho venize the work, nor did the conducting of Peter Many, who drew good playing from the local orchesiza (only state sele instrumental passages went sour! ropean markets."

There is a direct link now raise more money in the United between United States banks and other money markets, via the Euromarkets," said Mr. Richeof the Banque de Bruxelles, said there should be a "slow shift" of bacher. "This changes the supply conditions so that when American banks become more bond husiness back to New York liquid in three months the effects will be felt rapidly on Eu-

> Bankers Agree Other bankers agreed with Mr. Lamfalussy that the market in

international bonds, otherwise known as Eurobonds. will continue to function in Europe. There are two basic reasons for

this. One is that all other things being equal, investors prefer Eurobonds because there is no withbolding tax on interest payments as there is on bonds issued in the United States. The second reason is that bor-

rowers in the United States have to go through formidable regulations, such as registering with the Securities and Exchange Com-mission before issuing recurities. while rules are not so strict in

Good Market

Many blue-chip American corporations raise .noney in Europe by selling Eurobonds to international investors, ranging from Arab oil millionaires to South American cuttle barons. There bas been a generally good market for these American issues. especially in recent menths, as the dollar recovered its strength.

-Americans will now be able to buy Eurobonds without having to pay an interest equalization tax and many bankers expect that for this reason the markel will be fairly active.

However, there were questions as to the extent to which American institutional investors - insurance companies, pension funds and the like—would be permitted in the market because of re-straints imposed by so-called "blue sky" legislation in American states controlling the type of investments institutions can make.

Equal Yields Seen Although Eurobond rates are

now a little higher then equivalent bonds rates in the United States, many specialists in Europe expect that yields will tend to equalize as a result of the new interplay of international market There was also some conjecture

that the ending of controls would give a certain edge to international banks which would find themselves in a competitively hetter position than domestic American banks to make loans in the United States.

Domestic American banks have to apply the cost of maintaining reserve requirements to their loan charges. Additionally, they cannot pay interest on deposits of less than 30 days.

. The international banks, or "Eurobanks," as they are known in the trade-frequently London branches of American or foreign banks-do not face such requirements. This could mean, some specialists speculated, that the London branch of an American bank could conceivably be more active in lending in, say, New York City, than Its New York

FINANCIAL NEWS AND NOTES

GM Puts Off Expansion Project Because of slumping blg-car sales General Motors Corp. has deferred an expansion project at its Oldsmobile division in Lansing, Michigan, originally announced in 1972 and planned for completion in 1976. GM is also deferring a concurrent expansion at its Fisher body division plant which makes bodies for the Oldsmobiles. Meanwhile Chrysler Corp. is closing two major auto assembly plants in Detroit for half of February and March because of slow sales in hig cars. A total of 8,500 workers will be laid off. At the same time American Motors Corp. confirms that 11 plans to increase Gremlin model productiou soon. The move will enable the company to assemble about 20 percent more Grentins this year Ihan in 1973, when it built 93,500.

U.S.-Japan Investment Fund

Merrill Lynch. Pierce. Fenner & Smith Inc.'s Japanese branch. as well as Nomura Securities Co., Sanyo Securities Co. and Dal-Ichi Securities Co, will soon begin selling in Japan an open-end investment trust named United States Trust Iorestment Fund, Noniura reports. The Finance Ministry hegan discouraging Japanese investments in foreign securities early this month because of the country's deteriorating international balance of payments. Nomura officials say, however, the ministry approved the application from the securities firms to market the investment fund as an exceptional case because the applicalion was made last autumn. The fund mainly incorporates shares of U.S. firms listed on the New York Stock Exchanges.

Phoenix Gummi-Werke Expects Loss Phoenix Gummi-Werke empects to make a loss of around 8 million marks in 1973 after another difficult year and expects to pay no dividend for the second year running. Executive board chairman Peter Weinling says European group turn-over was 630 million marks. up from 568 million marks in 1972. The 1973 loss will be carried forward and is amply covered by reserves. Mr. Weinling says Phoeni: hopes to break even in the current year and possibly become profitable aguin in 1975.

Ford Germany to Go on Short Time Ford Werke AG plans to introduce short-time working next mooth for about 13.500 of its en-ployees in Cologne and Genk in Belgium because of slow demand and a shortage of supplies from Ford in Britain, where the company's production is affected by the three-day week. A spokesman says about 4.500 of the 34,000 work force at Ford's main plant in Cologne will be laid off for periods of between six and 14 working days after Feb. 11. About 9,000 workers at Genk will be laid off for 10 days in February. It is still not known whether short time will be introduced at Ford's Saarlouis plant, where workers were laid off for two periods of five days in January.

December Results May Foretell Slowdown

U.S. Leading Index Rises Only 0.1 Percent

WASHINGTON, Jan. 29 (AP. The government's last husiness Indicators index for 1973 pointed to a sharp slowdown in business activity in months ahead, the Commerce Department reported today.

The department's preliminary index of leading business indica-tors for December increased 0.1 percent, compared with an upward-revised 1.4 percent gain in November.

While not considered totally reliable, the index is regarded as an indicator of future economic performance. During most of 1973, the index

increased at a rate above 1 percent a month. It registered declines in April and September, The Commerce Department has cautioned that conclusions should not be drawn on the basis of a single month's performance. Nevertheless, the December in-

crease was the slowest growth of any month since June 1971 except for the two declines in 1973. Only two of the eight business indicators showed increases from

November. These were the pricelabor cost ratio and industrial material prices: Declines were registered in the other five indicators, new orders

for durable goods, contracts and stock prices, claims for unemployment insurance and huilding per-The average work week remain-

NEW YORK, Jan. 29 (NYT).-The energy crisis is with us-or

In Washington, oll industrialists awash in profits wore themselves weary last week trying to convince skeptical senators that the energy shortage was real and dangerous. In Europe some ce'ltral bankers were inuttering about another worldwide depression. The net result for the pubhe and policymakers alike is fusion. To cut through the fog. econo-

mists at least are thinking oew thoughts. They are turning their attention to what's happening in the international economy their effort to puzzic out what lies in store for the United States, Last year, a myopic concentration on domestic affairs nearly destroyed economists' credibility in a world ravaged by food shortages, commodity scarcities and soaring inflationnone of them forescen by the professional seers.

To better their record for at

least to try, economists have put to work their newest and most - complex - ever forecasting machine, called Project Link. This is a giant mathematical model Like any conomic model. it tries to describe the way the economy works through a set of equations based on past history.
As its name implies, the new model attempts to link together for the first time all the world's major economies to predict and describe bow a change in activity in one corner of the globe leads

Project Link is still in the devolonment stage after five years of work in more than a dozen economic research centers scattered over the globe. But last month at the bebest of Treasury Secretary George P. Shultz, hlmself an economist, Project Link went to Washington for its first tangle with the oil crisis. At a Treasury meeting of some

20 outside consultants, mostly academics the model was un-leashed to predict what will happen to the world's economies in the wake of the Arab oil cutbacks and the upward spiral of world oil prices. The first results were presented

at the private session by one of Project Link's founders. Prof. Lawrence Klein of the University of Pennsylvania.

Economic slowdowns in 1974, whileh had been predicted for some industrialized countries before the Arab oil embargo, will most likely worsen. Prof. Klein lold the group. Countries that had expected before the oil cutbacks) a drop in growth of, say, I percent because of doorestic economic problems can now expect a f.5 percent drop in growth because of the worldwide slowdown in trade that the Arab move is generating, he sald.

Beyond this so-called amplifler effect on national growth, the Link men found no evidence at all of an incipient depression like the disaster of the 1930s. Instead they reported a flattening of growth rates in many countries. a dip into recession for a few and greater inflation for all. Specific details ou Project Link Undings here been almost impossible to track down. Mr. Klein left soon after the Washington meeting for a sahbatical in Vienos, and the men he left be-

hind at Link hesdquarters in Philadelphia say the delails of the forecast oust remain secret because some of the numbers in it are based on sensitive, official data from foreign governments. Project Link is the latest variation on an old theme called ecocometric model-building. The new international project at-tempts to link the best national

econometric models available iu the world through their foreign-trade sectors. From this perspective, says Keith Johnson, the 28-year-old economist who is in charge of the day-to-day model work, the energy crisis seems to be looking less and less severe as time passes. The outlook has improved substantially since the forecast that Link made as recently as Jan. 10. Asserting that the oil embargo

now is leaking like a siere. Mr. Johnson says the biggest impact the Arab move will have on for-eign countries will be through higher prices paid for oil and related products rather than economic caused by shortages of fuel,

Stock Prices Fall Slightly On Big Board

Dow Index Drops .69 In Lower Volume

NEW YORK, Jan. 29 (IHT).— New York Stock Exchange prices began on a winning note today but backpedaled gradually in later trading and closed with a small

loss. Turnover was light. Investors generally appeared to be marking time pending President Nixon's State of the Union message to Congress which is to television audience tomorrow

erening. Part of the market's initial gain was attributed to yesterday's Commerce Department report that the United States had a record trade surplus last month, which pushed the nation's trade account for the year into the black for the first time since

Also, Saudi Arabian Oil Minister Ahmed Zaki Yamani reitcraled that King Faisal will try to persuade Arab states to lower the

export price of crude oil. The Dow Jones industrial average was off 0.69 to 852.32 while other leading indices also showed small losses. Declines outnumbcred advances by around 100 is-

Turnover was 12.85 million shares, down from 13.41 million yesterday.

American Motors was the most active issue on the Big Board, as it has been in several recent sessions, It fell 5.8 to 12 5.8. The issue gained sharply in previous sessions on Interest in its compact cars and the report that General Motors was considering

buying engines from American

Motors. Brokers said some in-

vestors look advantage of the un-

expected surge in the issue to sell out for profits today, Colonial Penn Group was also active, slumping 4 7 8 to 38 5 8, The company said. "There scenis to be a number of scurrious ru-

mors around, none of which 13 based in fact." Savings and loan association stocks generally gained after reports of relaxation of monetary policy by the Federal Reterve and a cut in bank prime rates, Financial Federation gained 5/8 to 13 1 4. First Charter Financial was 14 5-8, up 1/2 Gibraltar Ff-nanckii 14 7 8, ahead 1/2, Im-perial 10 5 8, ahead 5/8 and Great

Western Financial 20 1.4, up 5 8 Gold mining shares were most-ir lower as Lulion prices continued to retreat in Europe from u.s. Steel edged up 1 8 to 40.

Alter the market closed. Big Steel reported sharply higher fourthquarter per-share carnings, and boosted the quarterly dividend by f0 cents a share to 50 cents. IBM fell 1 1/8 to 243 1/4. al-

though it raised the quarterly payout by 6 cents a share to \$1.20. Copper Range climbed f 5/8 to

24 7.8. It declared a 12 1 2 cents a share dividend, the first American Brands rosc 1 3 8 to 37 7 8. The company reported

higher earnings and raised the quarterly dividend. General Motors rose 1 1/8 to

Merck lost a point to 78 despite improved earnings for the year. Polarold and Burroughs lost a point or more, while Atlantic

Richfield dropped 3 5/8 to 94 3/8 among the olis. Prices declined in light trading on the American Stock Exchange.

The Amex index was off 0.08 at

DOLLAR TRANSFER SYSTEM IT'S INHUMAN

MARTI was designed with built-in protection. Error-detec-tion routines guard against inconsistent and incomplete messages. And its correction capability lets a sender proofbeing accurate, it's flexible. It can physically type cheques, credit accounts and make payments through the Clearing House Interbank Payment System (CHIPS). It's capable of interfacing with Fed Wire, Bank Wire and eventually SWIET in Furgoe And its ally S.W.I.F.T. in Europe. And its design permits processing of all

types of transactions in one) message.

You can't beat MARTI for, speed, either. Instructions can be sent over your Telex; so same-day delivery is assured. It can even receive messages and hold them for processing at.

some date in the future.
MARTI is accurate, fast and

economical. That's why Citibankcustomers already use the system to process almost 2.4 billion
dollars daily.

All of which might suggest
that maybe it's time to forget
your old system and put MARTI
to work for you. After all, to err is
only human. But MARTI isn't.

diamond ace.

diamond discards.

The winning line of play in the diagramed deal is not obvious, and provides a good test for students.

Most players with the South hand would respond two hearts to one spade. However South took a conservative course by bidding one no-trump and following with two hearts. Game was still reached when North invited it by

bidding three hearts.

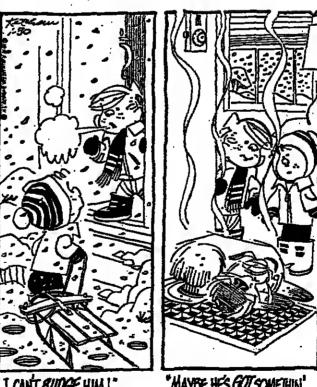

The bidding suggested the pos sibility of diamond ruffs in the dummy, so West led the ace and another trump. South could count nine tricks, but the 10th was not guaranteed There was an obvious danger of losing two diamonds and a club in addition to the heart ace,

There was no point in at-tempting to establish the fifth spade in the dummy—such a maneuver would help only if the NORTH (D)

THE CASE WORKER

By George Konrad. Translated from Hungarian. 4. Helen and Kurt Wolff Book, Harcourt Brace Jovanovich. 173 pp. \$6.95.

Reviewed by Irving Howe

society live the speechless. They are the broken and deranged, the flotsam and the lumpens, all those helpless people who have signed a separate peace with reality and now choose not to confront regulations, skills, responsibilities. The hierarchy of class crushes them, but they do not form part of it. They are waste of modern life, and

they are kept going, and kept down, by agents of the state whom we call social workers. Modern literature has noticed them not as "cases" but as creatures. They appear as tragic buffoons in Dostoevsky, rasping comic voices in Celine, grotesques in Nathanael West's "Miss Lonelyhearts," stumps of life in Hu-bert Selby's "Last Exit to Brooklyn." But never, to my knowledge. have they been evoked with such intimate authority and grating clarity as in The Case Worker." a brilliant first novel by a new writer from Hungary. With this one book George Komrad, him-self a social worker in Endapest, strides to the forefront of contemporary European literature. Because it is an original book,

club jack was an entry, in which case the contract would be easy one grasps at straws of comparison in order to stake out its was to find a play that would offer some chance if East held originality. The claustrophobic atmosphere of unfeeling bureaucracy and torpid streets -a faint of Kafka? The bitarre South saw a safety-play chance and took it. He overtook the second round of trump with his gaieties of the deformed-perhaps like Grass? A fixation upon physical detail and sensory assault —doesn't it remind one of Smolking and drew the last trump. Then he played the ace and king of clubs, rejecting the finesse. If lett? Such comparisons come to mind only to be dismissed: Konrad speaks in his own voice, contract was still safe, for a third club lead would establish He speaks as a case, worker a fairly decent and competent

bureaucrat whose job it is to record the pleas, the lies, the revelations of his "clients" and then send them to some home, or to another office, or back to the street. A humane man, he is also a policeman regulating "the traffic of suffering." Who can cope with the battalions of misfits, the regiments of victims? "My interrogations make me think of a surgeon who sews up his incision without removing the tumor." Something lies imbedded in the nature of things that is radically terrible; not so much evil in purpose or end. as gratuitously malformed. The case worker does his job in Communist Budapest, but except for the absence of drugs, it seems very much like capitalist Manhattan. The narrator makes no scorsations and places no blame. He speaks in a rhetoric of dispassionate grief. He is not indignant: who can imagine these shattered. "clients" being streed to revolt? He is not sentimental: who can suppose them to be models of innocence or morally admirable? They stink, they cheat, they lie -quite like successful people. Thrust into the endless web of their troubles, the case worker is shaken, implicated, drawn to their fumbling, stained by their need. He must record everything, be-cause he is "a burden bearer without illusions, specifically of

the complaining type."

But it offers rather little of such traditional novelistic mate-

BENEATH the lowest rung of risks as story and disrecterization It has a plot of sorts, with the narrator becoming involves with an idlot 6-year-old chik whose parents have killed themselves. The case worker abandons his job and family, moves into a moldy room with the child cleans it, feeds it, plays with it "This child," berely able to communicate its desires and recking of urine, "has become my fate."

What is the case worker searching for? Not solidarity with the oppressed, nor any response that can be socially defined. He has been seized by a kind of mela-physical vision, a persuation of interchangeability among men. "I search for my fellow man, always certain that the chosen one, my brother, is the one who happens to be coming toward me." This quest, for the bottom condition of life fails, as it must and at the end he is again a case worker, almost adjusted, regulatiner "the traffic of suffering"

It is a powerful book and gains its power from Konrad's gift for the vignette, the sud-denly snapped picture, as if taken through a slightly overfocused comers. The graphic proce car ries one from paragraph to paragraph, with no expectation of pleasure or accumulation of suspense, yet a need to share in the fated journey of a mind seeking to reach its limits.

Necessarily, there are losses in this kind of fiction, and the very sucress of this novel helps to define them. The vignette, the proce snapshot, the virtuoso passage connot yield us that experience of a systemed narrative that Lionel Trilling has described as being held soellbound, momentarily forcetful of oneself, con-cerned with the fate of a person who is not oneself but who also, by reason of the spell that is being cast, is oneself, his condoct and his destiny bearing upon the readers own." No: in reading "The Case Worker" we are not held spellbound, we are not for-getful of ourselves, since the anthor is trying for other effects the effects of a kind of ratio-cinative blow, almost a crinein-before the extreme possibilities of existence. But what saves the book from mere shock is the Konrad believes overwhelming in the moral significance of other people's experience, and or the conviction that the world, no matter how terrible is still the substance of our dam.

The materials of this book are of a kind that in recent years have often become the special property of documentary movies -we have even been told that the not match the film for vividness But "The Case Worker" shows !! anyone doubts it, that language remains the greatest of human powers, with unrivaled capacitles for evocation, parallel and echo notable debut, a remarkable achievement, and a vindication of the word.

Irving Howe is professor of English at Hunter College and author of "The Critical Point." This review is abridged. The New York Times

For ed to give him away last summer mistake let in the only goal.

punches to the head. All resled in Frazier'e corner and his legs sagged. But the bell rang within a few seconds

Frazier unloaded a crunching left to Ali's head just before the bell in the 10th round, as his luck would have it.

Ali admitted afterward. "He had me ont on my feet twice." But this time Ali did not clown. He did not have to because he was composed and able to do mostly what he wanted in maneu-

vering out of peril,

It was Frazier who seemed to
be a bit foothandy last night. He frequently concentrated on talking and grimacing at Ali to show how unimpressed he was with punching, but several times took hard blows while doing it. Without Respect

Prazier was booed even before the introduction in mid-ring and appeared to be bent on venting his hostilities by tearing after All without respect for his blinding jabs and unusual combinations of starting ith the right hand rather than the customary left. Frazier seemed to be trying to prove something by often stand-ing before the bell, though he needed the rests.

By the fourth round, Prasier's right eye began to puif. He sank sapping punches into Ali's belly, but it was a trim waistline Ali brought into the bout at 212 pounds. His fleetness made it unnecessary to take as many body blows as he did on March 8, 1971, when he simply ran out of energy.

There was evidence that All

has slipped some. He caught numbing belts to the head that he used to merely lean away from or parry with his arms. But Frazier was more betrayed by the passage of time. He scored mostly by swinging desperately over the top of All's defense, fre-

quently on the third or fourth punch of a series. Despite some indifferent showings in 13 previous bouts since March, 1971, All at age 32 looked last night as though his career

is for train over. George Foreman, who took the heavyweight title from Frazier, was in attendance, and Ali took note of that afterward with a

Asked if he would fight Frazier again, Ali said, "Yes, I would give him all the chances he wants. He to not like Foreman, who fights out of the country once every two years."

· Better Fight

All insisted that this was a better fight than the first one with Pranier. It was for him, but certainly not for his 30-year old rival:

greatest events in the records of A breakdown of the scoring showed that in only two rounds, the seventh and eighth, did all the officials agree that Frazier won They agreed on five winning sixth, ninth and 11th.

staged a special four-cluh tour-nament in Split, where the

weather is better than in Bel-

It was vital to give their best

players practice. With this in mind, they convened Red Star

Belgrade, still among the favor-

ites for the Europea Cup; Parti-zan, another leading Belgrade team; Dynamo Zagreh, and Haj-

duk Split. Then they adopted

four teams as "guest" players such internationals as goalkeeper

forward, Musemic, who like Dra-

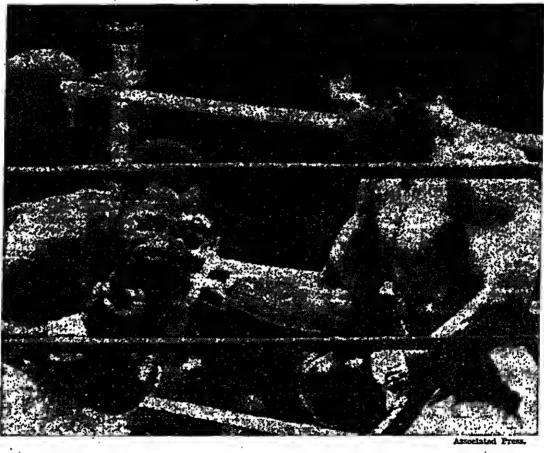

gan Dzajie is now in the army.

It could be that both Musemic

the device of inserting among the

New Orleans traded its No. 1

The Dissent

NEW YORK Jan. 29 (NYT) .--This time they fought from memory. This time the officials said Muhammad All had won in 12 rounds, though many in the bawling crowd in Medison Square Garden disagreed, and one of these could have been Angelo Dundee.

"You gotta stop him to win!" All's trainer shouted as a frenzied Joe Frazier chased his man in the last round. "You gotta stop him to win!" Maybe Dundee was only trying to spur the weary Ali to greater effort, and maybe he was accoring the bout.

The card in this corner gave

Fracier seven rounds, Ali five, with 7 points for Joe and 6 for mad. I have been wrong in the past and expect to be wrong in the future, probably when All is 35, Frazier 33 and "I think we should go again," the official winner said afterward,

Joe Frazier (left photo) hits Muhammad Ali's chin during second round. Below, All scores hard right to the head in the eighth round.

an ee-vent than anybody in the recorded history of records."

At \$100 tops this time, they drew \$1.053.688 at the gate. Three years ago, 20,455 clients paid \$1,352,951 at \$150 tops, but that was for the heavyweight championship of the world. This was for auld lang syne, and money. Nobody will know how much money until closed-circuit television accounts are in, but it will be a marvel if the gross approaches the \$20 million production of 1971.

Past Their Best It shouldn't. Three years ago, these were undefeated heavy-weights in the prime of youth and strength with equally valid claims to the championship of the world.

Last night, they came in as former champions, both beaten, both pest their best. They showed it. They fought as well as they

are able. Perhaps that is better

than most big men can fight now in the twilight of the sweet

lence, but any resemblance to

their first encounter was coin-In the first one, Frazier knock-ed Ali down and punched his face out of shape. This time it was Joe's face that was beginning to look like the West Side Highway

when they finished. It didn't get that way because of the power of Ali's blows, for as Joe kept telling him throughout the bout, the power wasn't there. But Frazier always has fought with his face, taking as many punches as necessary to get in his own heavy shots. And Ali, potshots as he fled, hit that oncoming face often enough. He had to hit it, for it was always

Matches like these almost always stir debate, for followers of the fancy never have agreed on a basic question: do aggressiveness and heavy hitting cancel out several light shots when the shooter is running away?

The answer last night was no.

The officials said no, many qualified judges at ringside said no and of course the beautiful people who have made a pet of Ali said no. (To Ali'e credit, he doesn't court these people, but being there to scream for him has become the in thing to do.) Infinitely Showler

Especially to those somewhat

removed from ringside, it must have seemed that Ali was leading all the way, partly because they wanted to believe so but mostly because he is infinitely showier than the crowding, crouching Frazier, even when his punches are glancing off gloves and

"He had me out on my feet twice," All said afterward, "but I'm too skillful."

Not many who heard believed him, not even those who felt Frazier had won. Ali says things like that because he has to say something or stop breathing. Actually, there was a moment in the second round when Frazier seemed in deeper trouble than Ali ever did. A straight right to the side of the head made Joe stumhie, but as Ali tried to rake him with a fusillade, Tony Perez, the referee, got in the way. Mis-takenly thinking the bell bad rung, Perez halted the action long enough to give Frazier respite if Frazier needed it.

Probably Joe didn't, for he came charging out for the third round. and that was the first he won, From then on he always came out with a rush, teeth gleaming hungrily. He attacked as remorse lessly as ever, taking punishment willingly as always, and until Ali's legs gave out, he tried earnestly to dance and shuffle as of old. When caught be held, heeding neither Frazier's protests nor the referee's warnings.

The shricks of the beautiful people, the feeling that any moment the stalker might capture his prey, the background of this rowdy rivalry and the buildup and the money-all this lent a considerable excitement to the

Yet under it all, the truth was that these were gladiatore of deteriorating skills. The bright memories were there, but the tim-

Blank Screen Sets Off Riot

DAYTON, Ohio, Jan. 29 (UPI).—About 8,000 persons attending the Muhammad Ali-Joe Frazier closed-circuit telecast rioted at Hara Arena near here last night when the video portion of the telecast went blank minutes before the start of the fight.

"They just went berserk when the screen went blank," s spectator said.

The Montgomery County sheriff's office reported po inwas restored within an hour after the fans, who paid \$15 a ticket to see the fight, began the disturbance by throwing

The Crowd: There Was a Big Spectacle Outside the Arena, Too

NEW YORK, Jan. 29 (NYT). The strutters arrived at 9:45 last night, the tall slender men in their crushed-velvet outfits, a gaggle of celebrities, the women with sable coats covering their chilled, wet ankles.

But it was no replay of the first Muhammad Ali-Joe Frazier match at Madison Square Garden. It was rather like a badly frayed kinescope.

Here is a rundown of all the

Dellas (from Bouston)—Ed Joors, Tennessee Stais defensive lineman; San Diego—Bo Mathews, Colorado fulbock; N.Y. Giants—John Bicks, Ohio State offensive guard; Chicago — Raymond Bryant, Tennessee State linebacker; Baltimore—John Dutton, Nebraska de-fensive tanks; N.Y. Jets — Carl Bartifauskus, Indiana defensive tacks; St. Louis—J.V. Oain, Colorado tight-end.

ond.

Detroit (from New Orlsans)—Ed O'Neil, Fran State linebacker; San Francisco (from New England)—Wilbur Jackson, Alabama running back; San Francisco—Bill Sandiler, UULA defendre, Lackie; Los, Angeles (from Fhiladeighia)—John Gappelletti, Fean

It was approaching 10 p.m., and suddenly a few men dashed past the guards. Clubs drawn, the guards chased them. Soon a hundred fans ran over the fallen "Shut the doors!" a guard shouted to the ticket-takers. No

one was permitted in until order was restored. The escalators leading from Penn Station also were "Watch your wallets," yelled a

special policeman. "Don't you worry about that. I got my hand on mine all night," spectator said. The shoving and milling reached its height outside the build-

ing. The police issued more than 400 summonses to parked cars and taxis in the area. A heavy woman stood near the arena and sobbed.

"I was just beld up," she said. She is a cleaning woman who had saved \$50 to buy a ticketwhich was stolen.
Gasps and glances greeted the

arrival of the grand chancellor

of the Knights of Pythias of Alabama. William Parker arrived with a woman. They both wore velvet white coats with an Indian motif. Underneath, they both wore metallic suits. 'I had them specially made for the fight," Parker said. "What's this fight all about? It's about

people. They're the same all At ringside, two teen-agers were John and Caroline Kennedy, and the old man with the cane near them was Toots Shor.

And there were other notables among the 20,748. But it wasn't a night for parading.
Still, the sight of so many people, and their rush through

the gates, took its toll on at least one ticket-taker. He broke down before fighttime, sobbing and cursing. He was led off by a

CHRISTCHURCH, New Zealand, Jan. 29 (AP),-Ben Jipcho

The 30-year-old Nairobi prison officer had already won a gold medal in the 3,000-meter steeplechase. And Saturday, he will be

in the games.

Jipcho won the 5,000 in 13:14.4, and broke one of the few remain-ing records of Ron Clarke. The great Australian's Commonwealth mark of 13:16,6 had stood since Jipcho's victory was the dre-

matic highlight of the day. He finished a fifth of e second ahead of England'e Brendan Foster after a duel that had lasted throughout the final lap.

The Kenyans moved up a place in the medals etandings, and are now fourth, with five golds, three silvers and three bronzes. Aus-

tralia leads with 14 gold medals,

David Bedford, England's longdistance star, had his second failure of the games, and an even more bumiliating one this time. He set the pace in the 5,000 meters for the first three laps but finished three-quarters of a

SAN SEBASTIAN, Spain, Jan.

lap behind Jipcho.

Two spectators at the fight exhibit a sample of the sar-

torial splendor that abounded at Madison Square Garden.

Cross-Country Race

29 (UPI).-Mariano Haro of Spain yesterday won the 18th edition of the San Sebastian Cross-Country Race, covering the 10,000 meters in 30:43.6.

Record in 5,000 Meters Set in New Zealand going for the 1,500 meters and Canada has 11 and England a treble which would be unique eight.

of Kenya won a thrilling 5,000 meters today and was two-thirds of the way toward becoming the outstanding star of the 10th Commonwealth Games.

Precious Few Diminish

By Russell Baker

WASHINGTON II Secretary of cooking and shopping, keep the and he is said to be ready to go, President Nixon may have to Obviously, we have here a very resign after all, not because of delicate division of tasks. If President Nixon may have to Watergate but because he is running ont of people to run the

government At present, with Secretary Shultz still working, the Nixon administration is made up of 10 persons. On June 16, 1972, the eve of the Watergate burglary, the administration hy

Baker

contrast had a payroll of 7,362 persons in the White House alone, and this did not include 2,722 White House people who had been temporarily assigned to the Committee to Re-Elect the President.

The 10 who are left are President Nixon, Gen. Haig, Ronald Ziegler, Rose Mary Woods, Gerald Warren, Henry Rissinger, Secre-tary of Defense Schlesinger, Roy Ash, William Simon end Shultz, It is hard to see how the government can go on if even one quits. Consider their present division of responsibilities.

Shultz handles the economy, Kissinger deals with foreigners, Simon manages the oil shortage, Schlesinger operates the military and Ash keeps them on their toes trying to get ahead of them all in the struggle for power.

A struggle for power has to go on in every administration, or it would not be an administration. No exception can be allowed for the present administration, although sensible persons may observe that it has practically no power left to be struggled for. As long as the struggle-even for powerlessness—can be continued, the illusion of power can be maintained. It is Ash's thankless job

to do so. President Nixon, Gen. Haig. Miss Woods, Ziegler and Warren make up what is called "the White House." The President launches and cancels operations, such as Operation Candor, Operation Cut the Candor, Operation Hang Tough, Operation Fight Like Hell and so forth,

Gen. Haig hires and fires law-yers, Miss Woods works in tape and Ziegler and Warren deal with the press, polish the brass, do the

the Treasury Shultz quits, windows washed and tell the President he is looking great, Shultz pulls out, it might seem easy to move Ash into his job. Not so. For one thing, Shultz's job may be the most powerful of the 10. If Ash, whose joh is struggling for power, were to get such a vital position, everyone would say that ha had won the

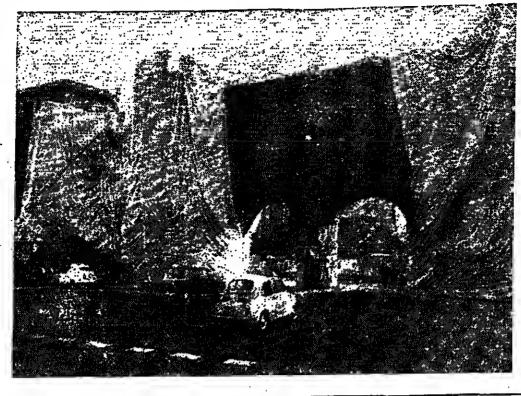

Washingtoo power struggle. This would probably result in resignations by Gen. Haig, Simon and Miss Woods, all of whom would feel that their powers had been reduced. Then besides having to find somebody to handle the economy, the administration would have to come up with a new oil crisis manager, somebody who can hire and fire lawyers and a new tape handler.

Unfortunately, Ash must stay where he is. Nor can Secretary Schlesinger he moved from the Pentagon to the economy, since the only man who could possibly succeed him, Secretary Kissinger, would then be in the position of having to spy on himself in order to keep the Joint Chiefs of Staff abreast of his thinking. Kissinger is known to believe that spying on himself is dishonorable.

The ideal solution would be to find a new person willing to come into the administration. Feelers which have been put to a number of distinguished persons have not produced results. David Rocke-feller, for example, is reliably said to have replied that while he would be honored to serve in the administration he, unfortunately, has a prior engagement to attend the opera in Milan. Great pressure is being put on

Julie Nixon Eisenhower to fill Shultz's shoes, and she may accept. Warren and Ziegler might con-ceivably be persuaded to add Shultr's joh to their many other duties, although this is doubtful. Both of them did a lot of ugly mnttering about resignation a few weeks ago when they were told they would have to start doing the White House plumbing repairs and flying the helicopters to Camp David.

Another solution, of course, would he to drop the ecocomy altogether. Considering the shape it's in, this may be the sensible

ANTIQUE COVER-UP

Christo Javacheff, the Bulgarian - born (1935) artist with a penchant for covering things up, is back at it again. This time it is the Aurelian Wall at Porta Pinciana in Rome. He said that he intended "to recall the attention of the spectator. before the metamorphosis of the object, to the reality and mystery, of the object." Among his other cover-ups: La Scala in Milan. Christo is the artist who draped a 250,000 - square - foot curtain across Grand Canyon in Colorado in 1971.

The Success of Worldwide Franchising-and an Exception

By Linda Charlton

NEW YORK. (NYT).—The beaming, hearded face of Ken-tucky's Col. Harlan Sanders is a familiar billboard sight in Hong Kong; McDonald's is booming on the Ginza. Even in the remote corners of the world these days, franchising—everything days, franchising—everything from houseboat-rentals to pizza is becoming big business.

Fart-food franchising, the most

widespread form, has been most successful in such unlikely areas as Asia, and least profitable in one country that cherishes its home cooking-Italy. McDonald'e officials, after two years of testmarketing, concluded that they "could not at present recommend

A similar hamburger-and-vari-ations chain, Wimpy, which is highly successful both at home in Britain and in other countries, has sustained such heavy losses that it may close its twoyear-old Rome outlet. Just why Italy is an exception to the worldwide franchise success story is partly a matter of taste, and partly of law—or, rather nonexistent law. No legislation regulates franchise tremely difficult to obtain a license to start any kind of retail business. In addition, pressure from small, independent busis against chain operations it strong and discouraging. Besides, as an American legal

contracts in Italy, and it is ex-

consultant in Milan, Ted Cosh-near, put it, "Italian eating habits are parochial, and [they] don't take well to new foods." At the other end of the acceptance spectrum is Japan, a country noted for its enthusiastic assimilation of the technology, artifacts and oddities of other

The McDonald's in downtown Tokyo "is exactly the same as American McDonald's," said likue Watanahe of Japan's McDonald's. Even from the size of straws for the chocolate shake to the color of the wastebaskets." Employees even speak English to satisfy Japan's "gaijen," or foreigner, complex, Western franchisers have been

quick to exploit this eager mar-ket. Col. Sanders first appeared

million, McDonald's, with 39 company-owned outlets scattered in Japan'e urban areas, is not yet franchised, but its Ginza restaurant has hit the highest sales figure of any of the thousands around the world-\$17 per minnte in June, 1973.

There are also 33 flourishing Wimpy outlets, 16 Dairy Queen enterprises and 47 Dipper Dan Ice Creams to vary the tradi-tional Japanese diet. The first

'O! Calcutta!' Movie Is Banned in Italy

ROME, Jan. 29 (UPI).—An Italian prosecutor today banned the screening of the film "O! Calcutta!" throughout Italy on grounds the censors did not cut enough obscenity.

When the film opened in five Rome cinemas last week the Rome newspaper II Messaggero commented "In addition to very hig cuts, the censor also imposed a painstaking blackout of all male private parts by means of ink spots... The result is not only grotesque but, watch it to believe it—it's obscene."

PEOPLE: Margot Fonteyn to Dance For Chile's Reconstruction

Dame Marget Fonteyn, the British hallerina, is in Santiago to dance in two gala performances, organized by Chile's rightist military junta to gather funds for "national reconstruction." -Heinz Bosi, star of the Bavarian State Ballet, will be her partner. Dame Margot made an appearance in Santiago last November, two months after the overthrow of Marxist Presi-dent Salvador Allende, also in aid of Chilean reconstruction.

People reader Robert Mott of Geneva protests (and rightly) that People is all wrong about Salina, Salinas and the late John Stembeck (IHT, Jan. 26-27), Mott was "born within spitting distance of Salina, Kansas... and grew up within a morning's drive of Salinas, Calif. It was the latter in which Steinbeck grew up." All of which puts the Steinbeck restaurant in California and not in Kansas, as reported in the first edition of the IHT.

An Italian civil servant has filed a suit complaining that he gets too much pay for too little work. "I spend my eight hours in almost complete idleness," said Cire Villano of Genoa, an architect's assistant for the state-owned expressway complex. "And my pay is 350,000 lire a month." He asked for more work. A Genoa court is considering the case.

Canadian Prime Minister Pierre Trudeau is skiing in Switzerland before attending the three-day Club of Rome meeting in Salzburg, Austria, beginning Feb. 3. He will be in St. Moritz for the start of the world ski championships on Feb. 2, Mrs. Trudesu is taking a separate vacation in the Caribbean.

Actress Jane Russell, 52, will marry Santa Maria, Calif., real estate broker John Calvin Peoples, 47—they took out a wedding license Monday Miss Russell, who gained fame in the early 1940s in the Howard Hughes film, "The Outlaw," was previously married to pro football player Bob Waterfield. Their 25-year marriage ended in divorce in 1968. She then married actor Roger Barret, who died three months later. Miss Russell has three adopted children, Tracy, Thomas and Robert,
